(57) **CLAIM**

We claim the ornamental design for an antenna, as shown and described.

**DESCRIPTION**

The sole FIGURE is a front view of an antenna of the present invention.

The claimed design is too thin to be visually perceived in side views, for which reason no side view is shown.

In the drawing, the broken lines depict portions of the antenna that form no part of the claimed design. Additionally, the dot-dash lines in the drawing define the limits of the claimed design.
