(57) **CLAIM**

The ornamental design for a graphical user interface for a portion of a display screen, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a graphical user interface for a portion of a display screen according to an embodiment of the new design;

FIG. 2 is a front view of a graphical user interface for a portion of a display screen according to an embodiment of the new design;

FIG. 3 is a front view of a graphical user interface for a portion of a display screen according to an embodiment of the new design;

FIG. 4 is a front view of a graphical user interface for a portion of a display screen according to an embodiment of the new design;

FIG. 5 is a front view of a graphical user interface for a portion of a display screen according to an embodiment of the new design;

FIG. 6 is a front view of a graphical user interface for a portion of a display screen according to an embodiment of the new design;

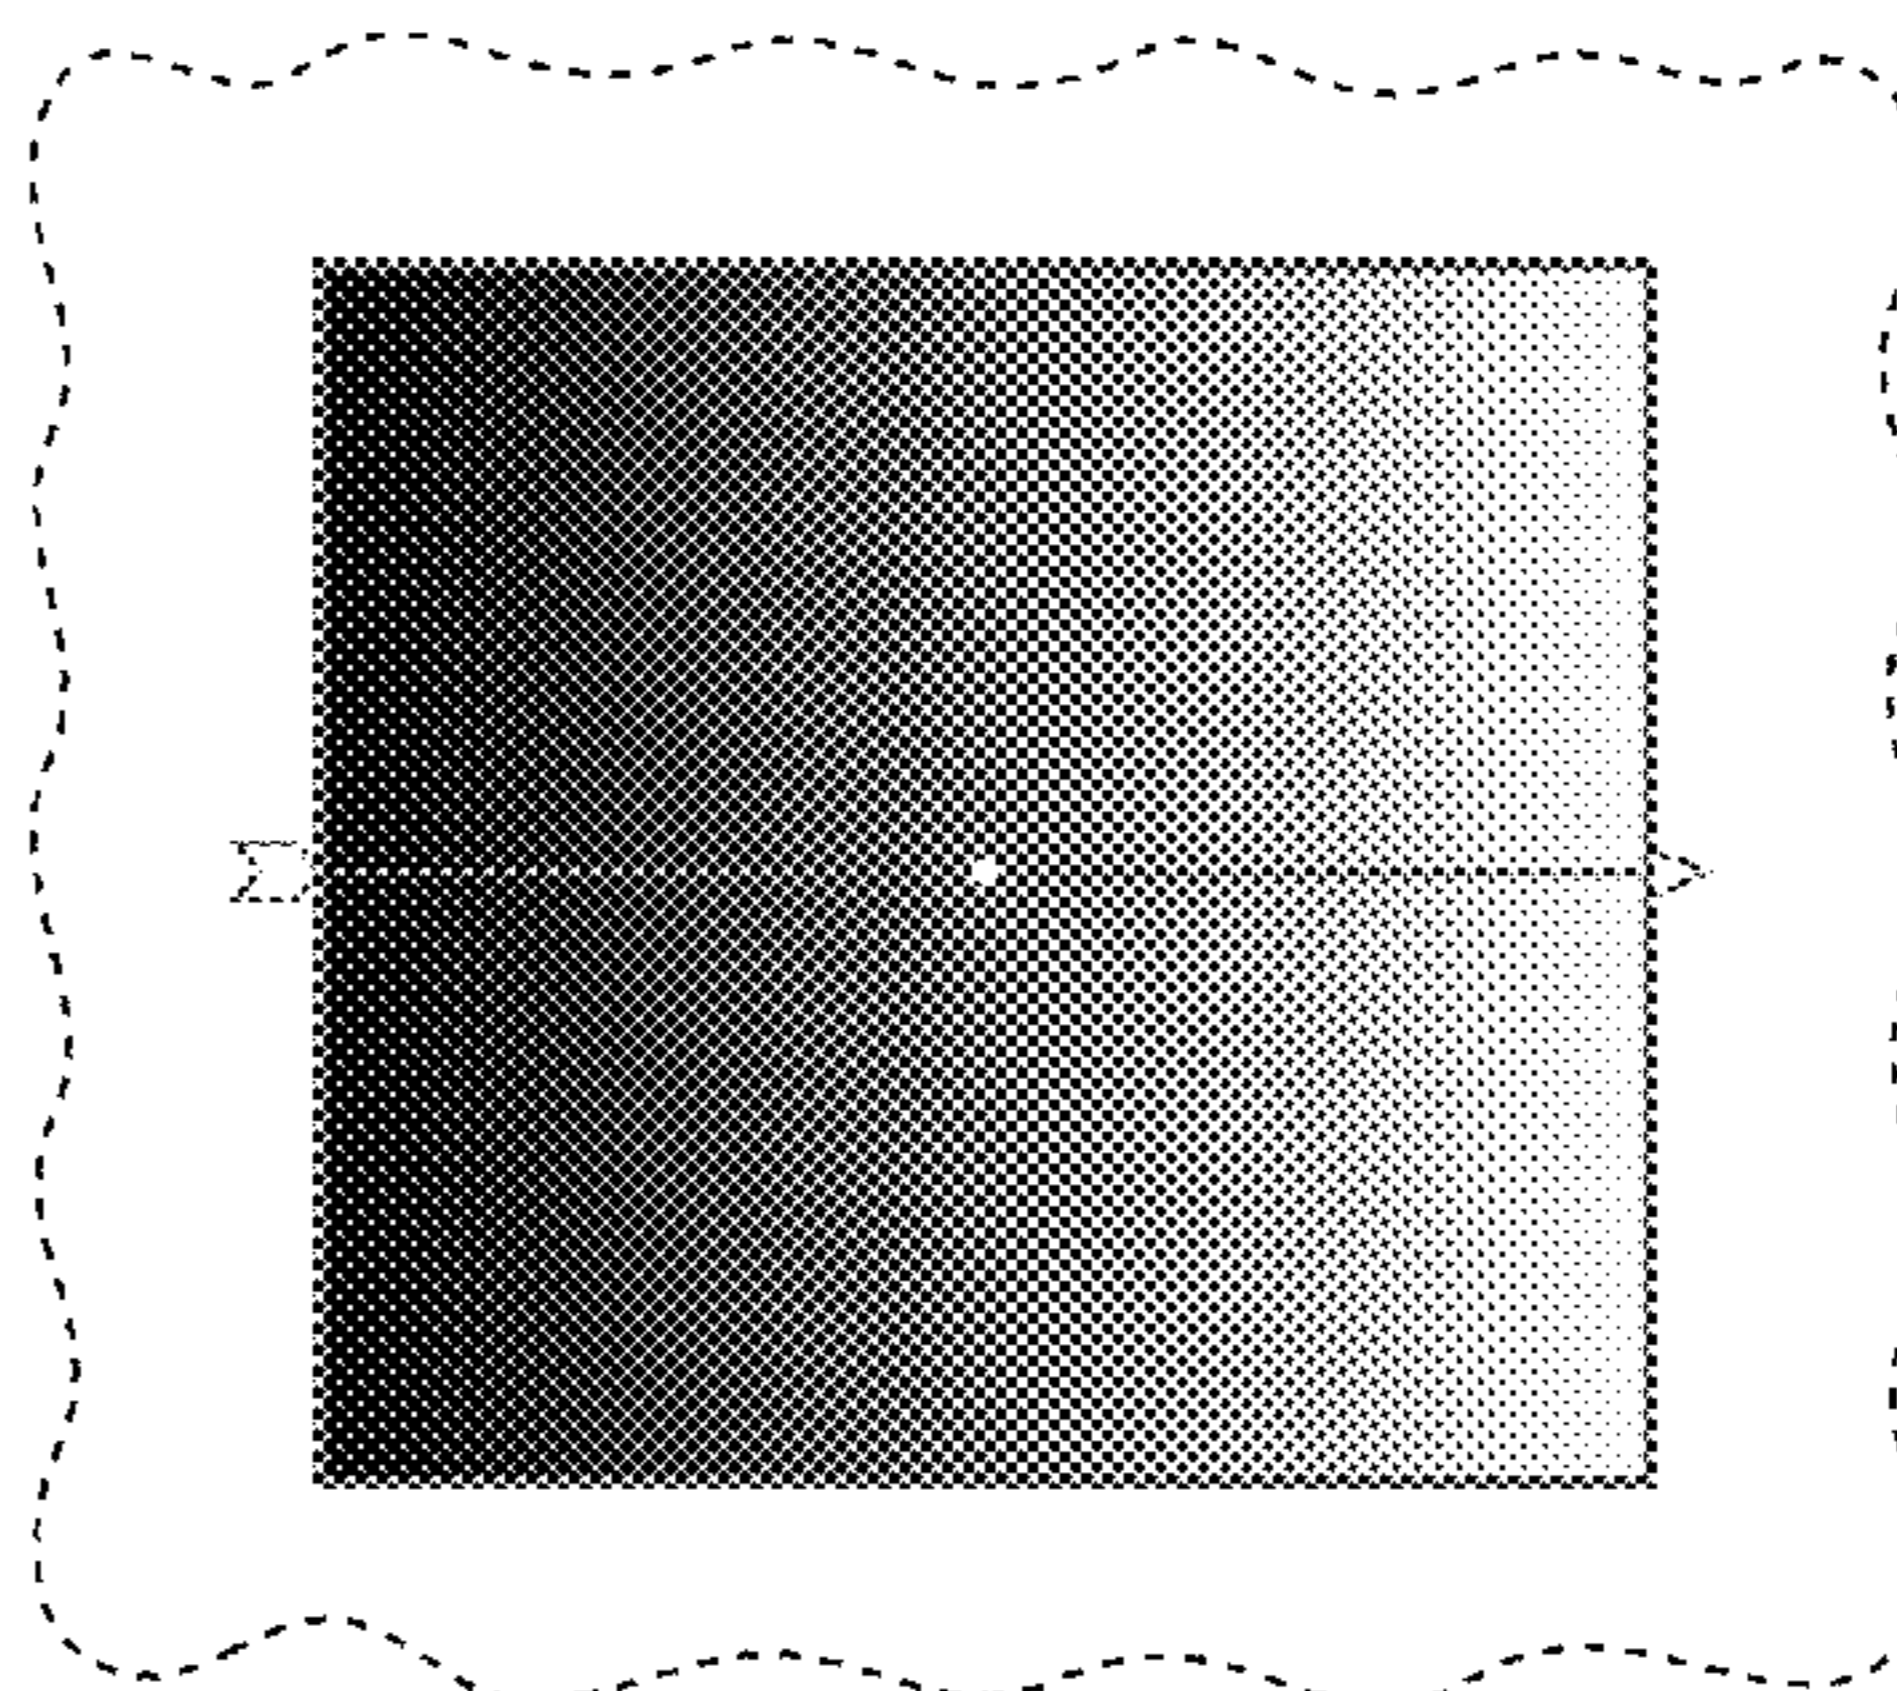

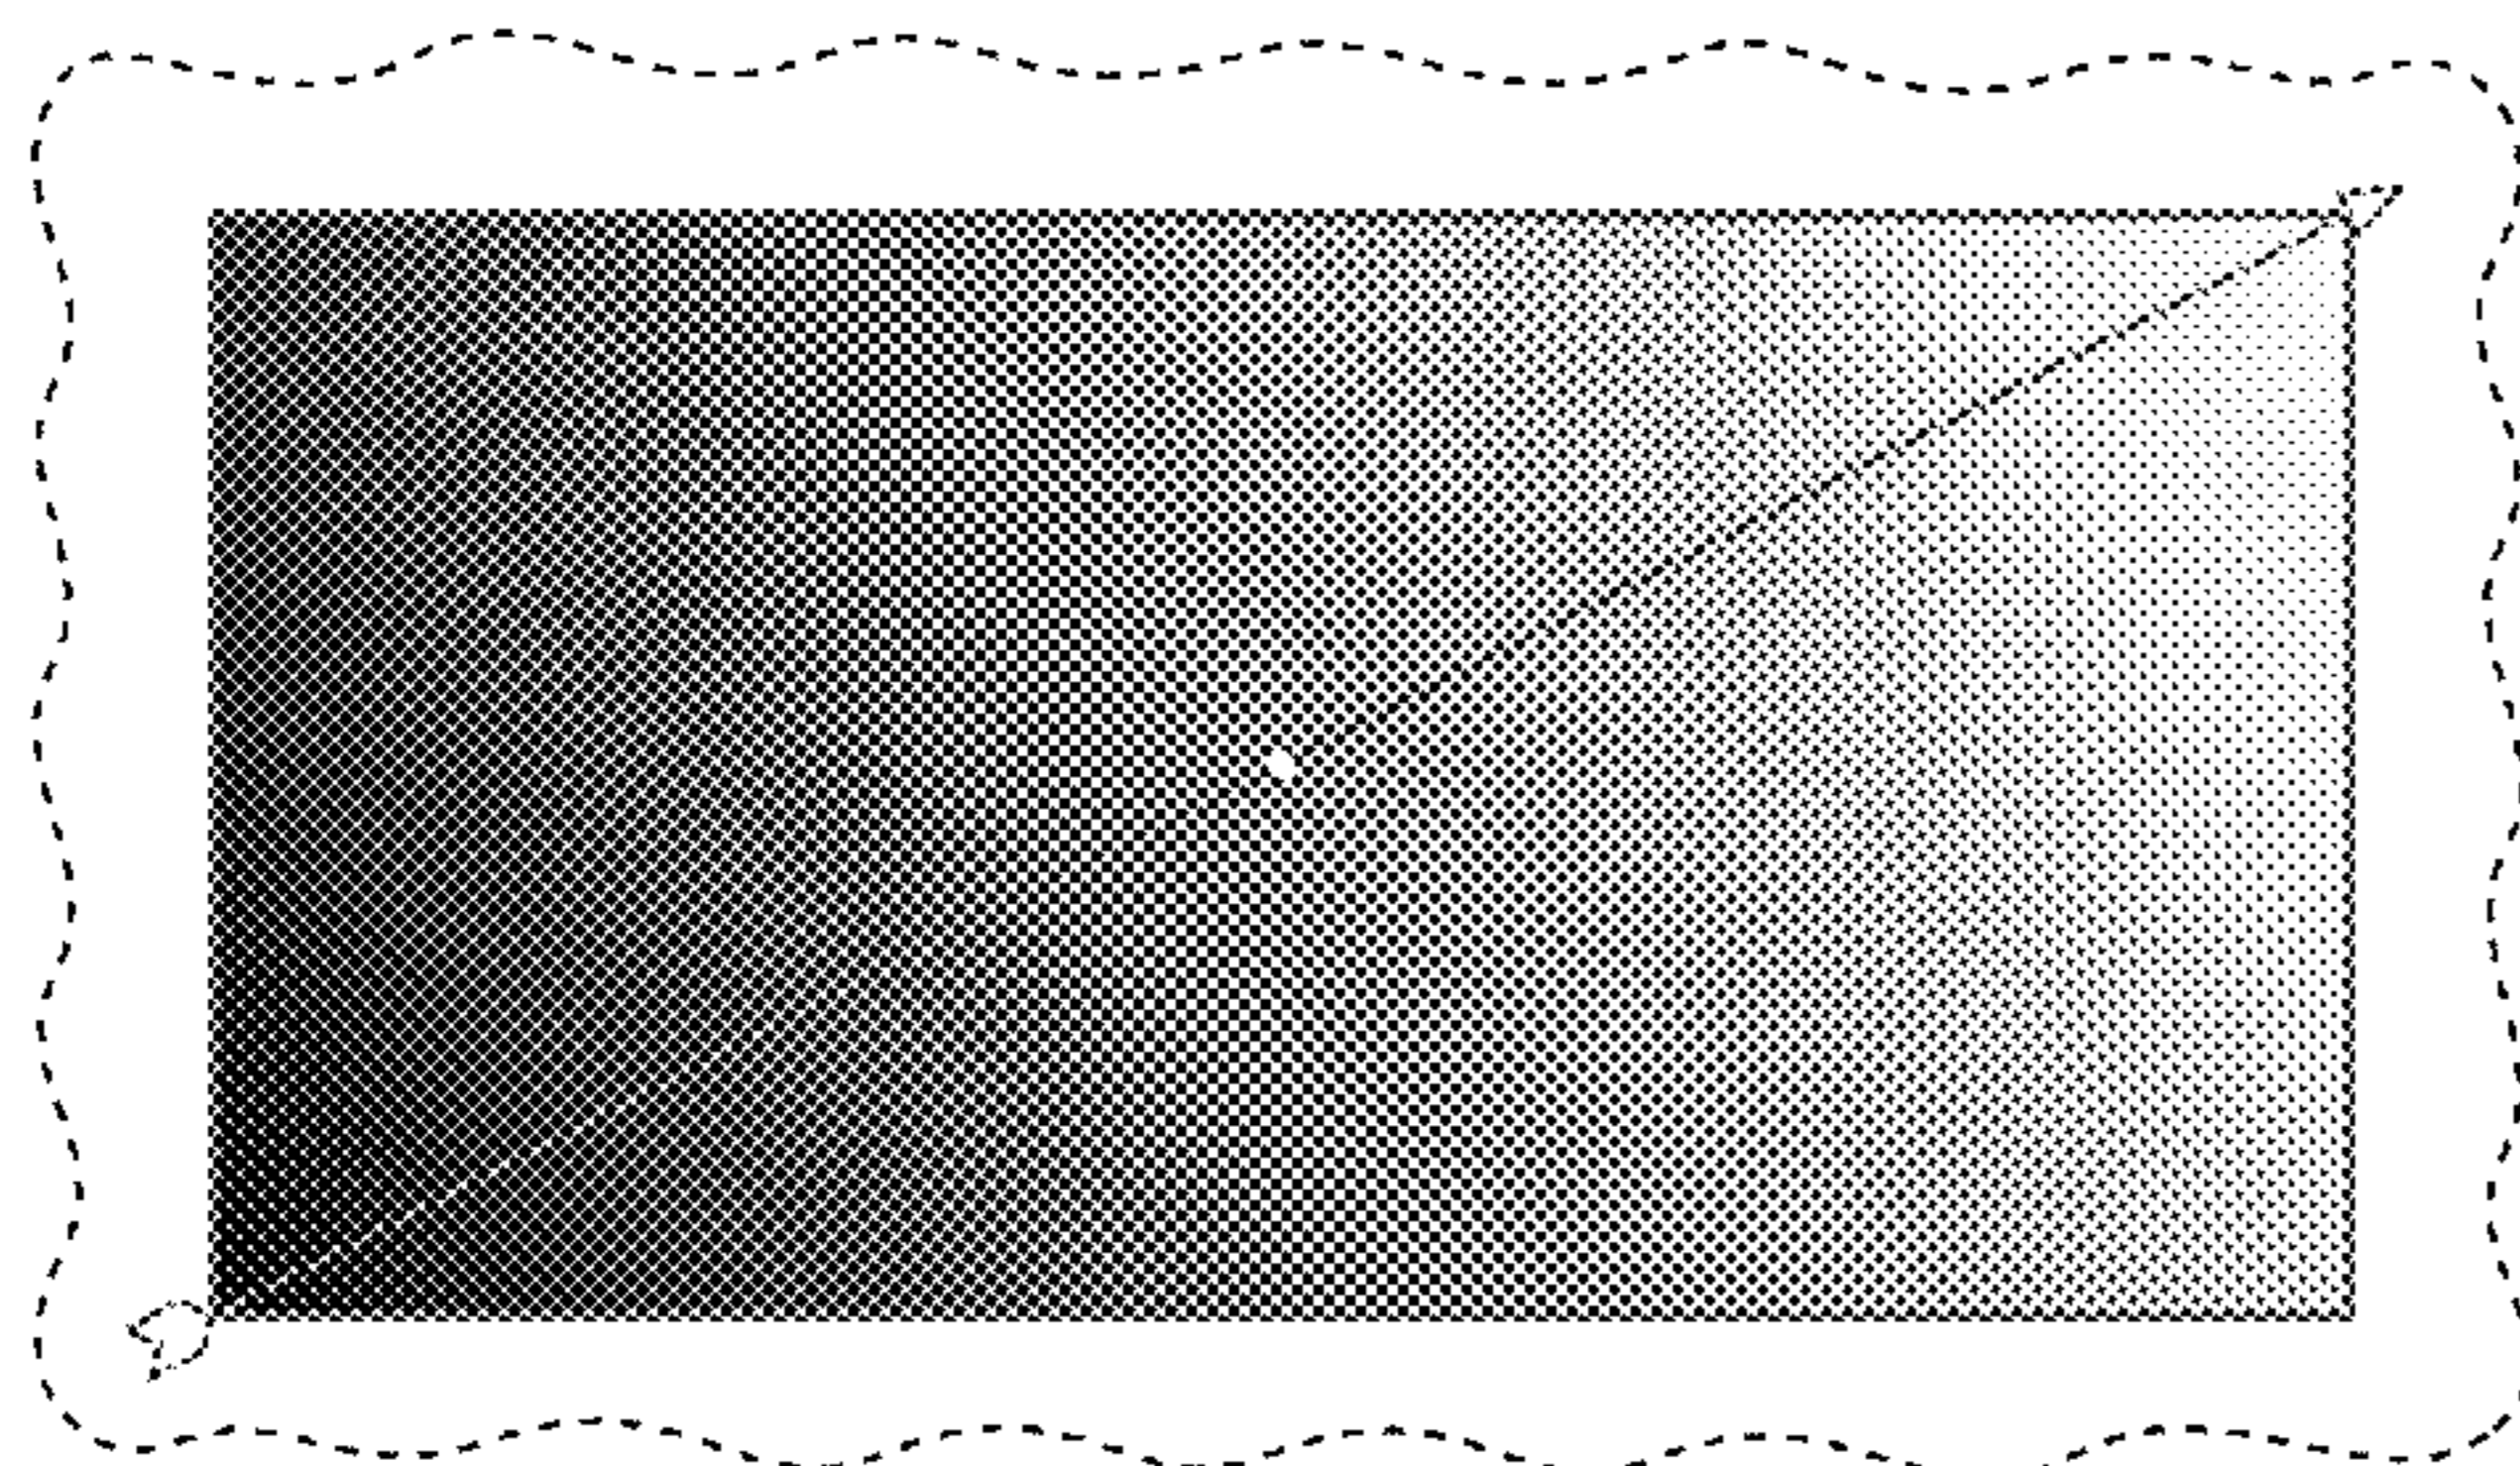

FIG. 7 is a front view of a graphical user interface for a portion of a display screen according to an embodiment of the new design; and,

FIG. 8 is a front view of a graphical user interface for a portion of a display screen according to an embodiment of the new design.

Each graphical user interface in FIGS. 1–8 represents an individual embodiment of the design, and the design is not limited to any particular grouping or arrangement of any plurality of embodiments.

The broken line showing of the display screen is for illustrative purposes only and forms no part of the claimed design.
