

US00D609843S

(12) **United States Design Patent**  
**Ngai et al.**

(10) **Patent No.:** **US D609,843 S**  
(45) **Date of Patent:** **\*\* Feb. 9, 2010**

(54) **OLED LIGHTING FIXTURE WITH SUSPENSION**

(75) Inventors: **Peter Y. Y. Ngai**, Alamo, CA (US);  
**Frank A. Friedman**, Mill Valley, CA (US)

(73) Assignee: **ABL IP Holding, LLC**, Conyers, GA (US)

(\*\*) Term: **14 Years**

(21) Appl. No.: **29/343,219**

(22) Filed: **Sep. 9, 2009**

(51) **LOC (9) Cl.** ..... **26-03**

(52) **U.S. Cl.** ..... **D26/88**

(57) **CLAIM**

The ornamental design for an OLED lighting fixture with suspension, as shown and described.

**DESCRIPTION**

FIG. 1 is a bottom perspective view of an OLED lighting fixture with suspension showing our new design;

FIG. 2 is a top perspective view thereof;

FIG. 3 is a front elevational view thereof, the rear elevation, and the left and right side elevations being identical thereto;

FIG. 4 is a rotated elevational view thereof; and,

FIG. 5 is a bottom plan view thereof.

“OLED” means organic light-emitting diode. The characteristic feature of the design resides in the overall shape of an OLED lighting fixture in combination with a suspension element. The suspension element could be a flexible cable or a rigid stem. The OLED lighting fixture can emit light from all or a portion of its bottom and/or top surfaces. The OLED lighting fixture can also be transparent, translucent or opaque; or different portions of the OLED lighting fixture can be transparent, translucent or opaque while other portions have a different transparent, translucent or opaque characteristic.

The suspension element of the design is cut-away at the top to indicate indeterminate length. In FIGS. 2 and 5, the broken line showing of a suspension element attachment knob at the bottom of the OLED lighting fixture is provided for illustrative purposes only and forms no part of the claimed design.
