FIG. 1 is a front perspective view of a rear panel for a handset showing my new design; and,

FIG. 2 is an enlarged view of the rear panel shown in isolation for clarity.

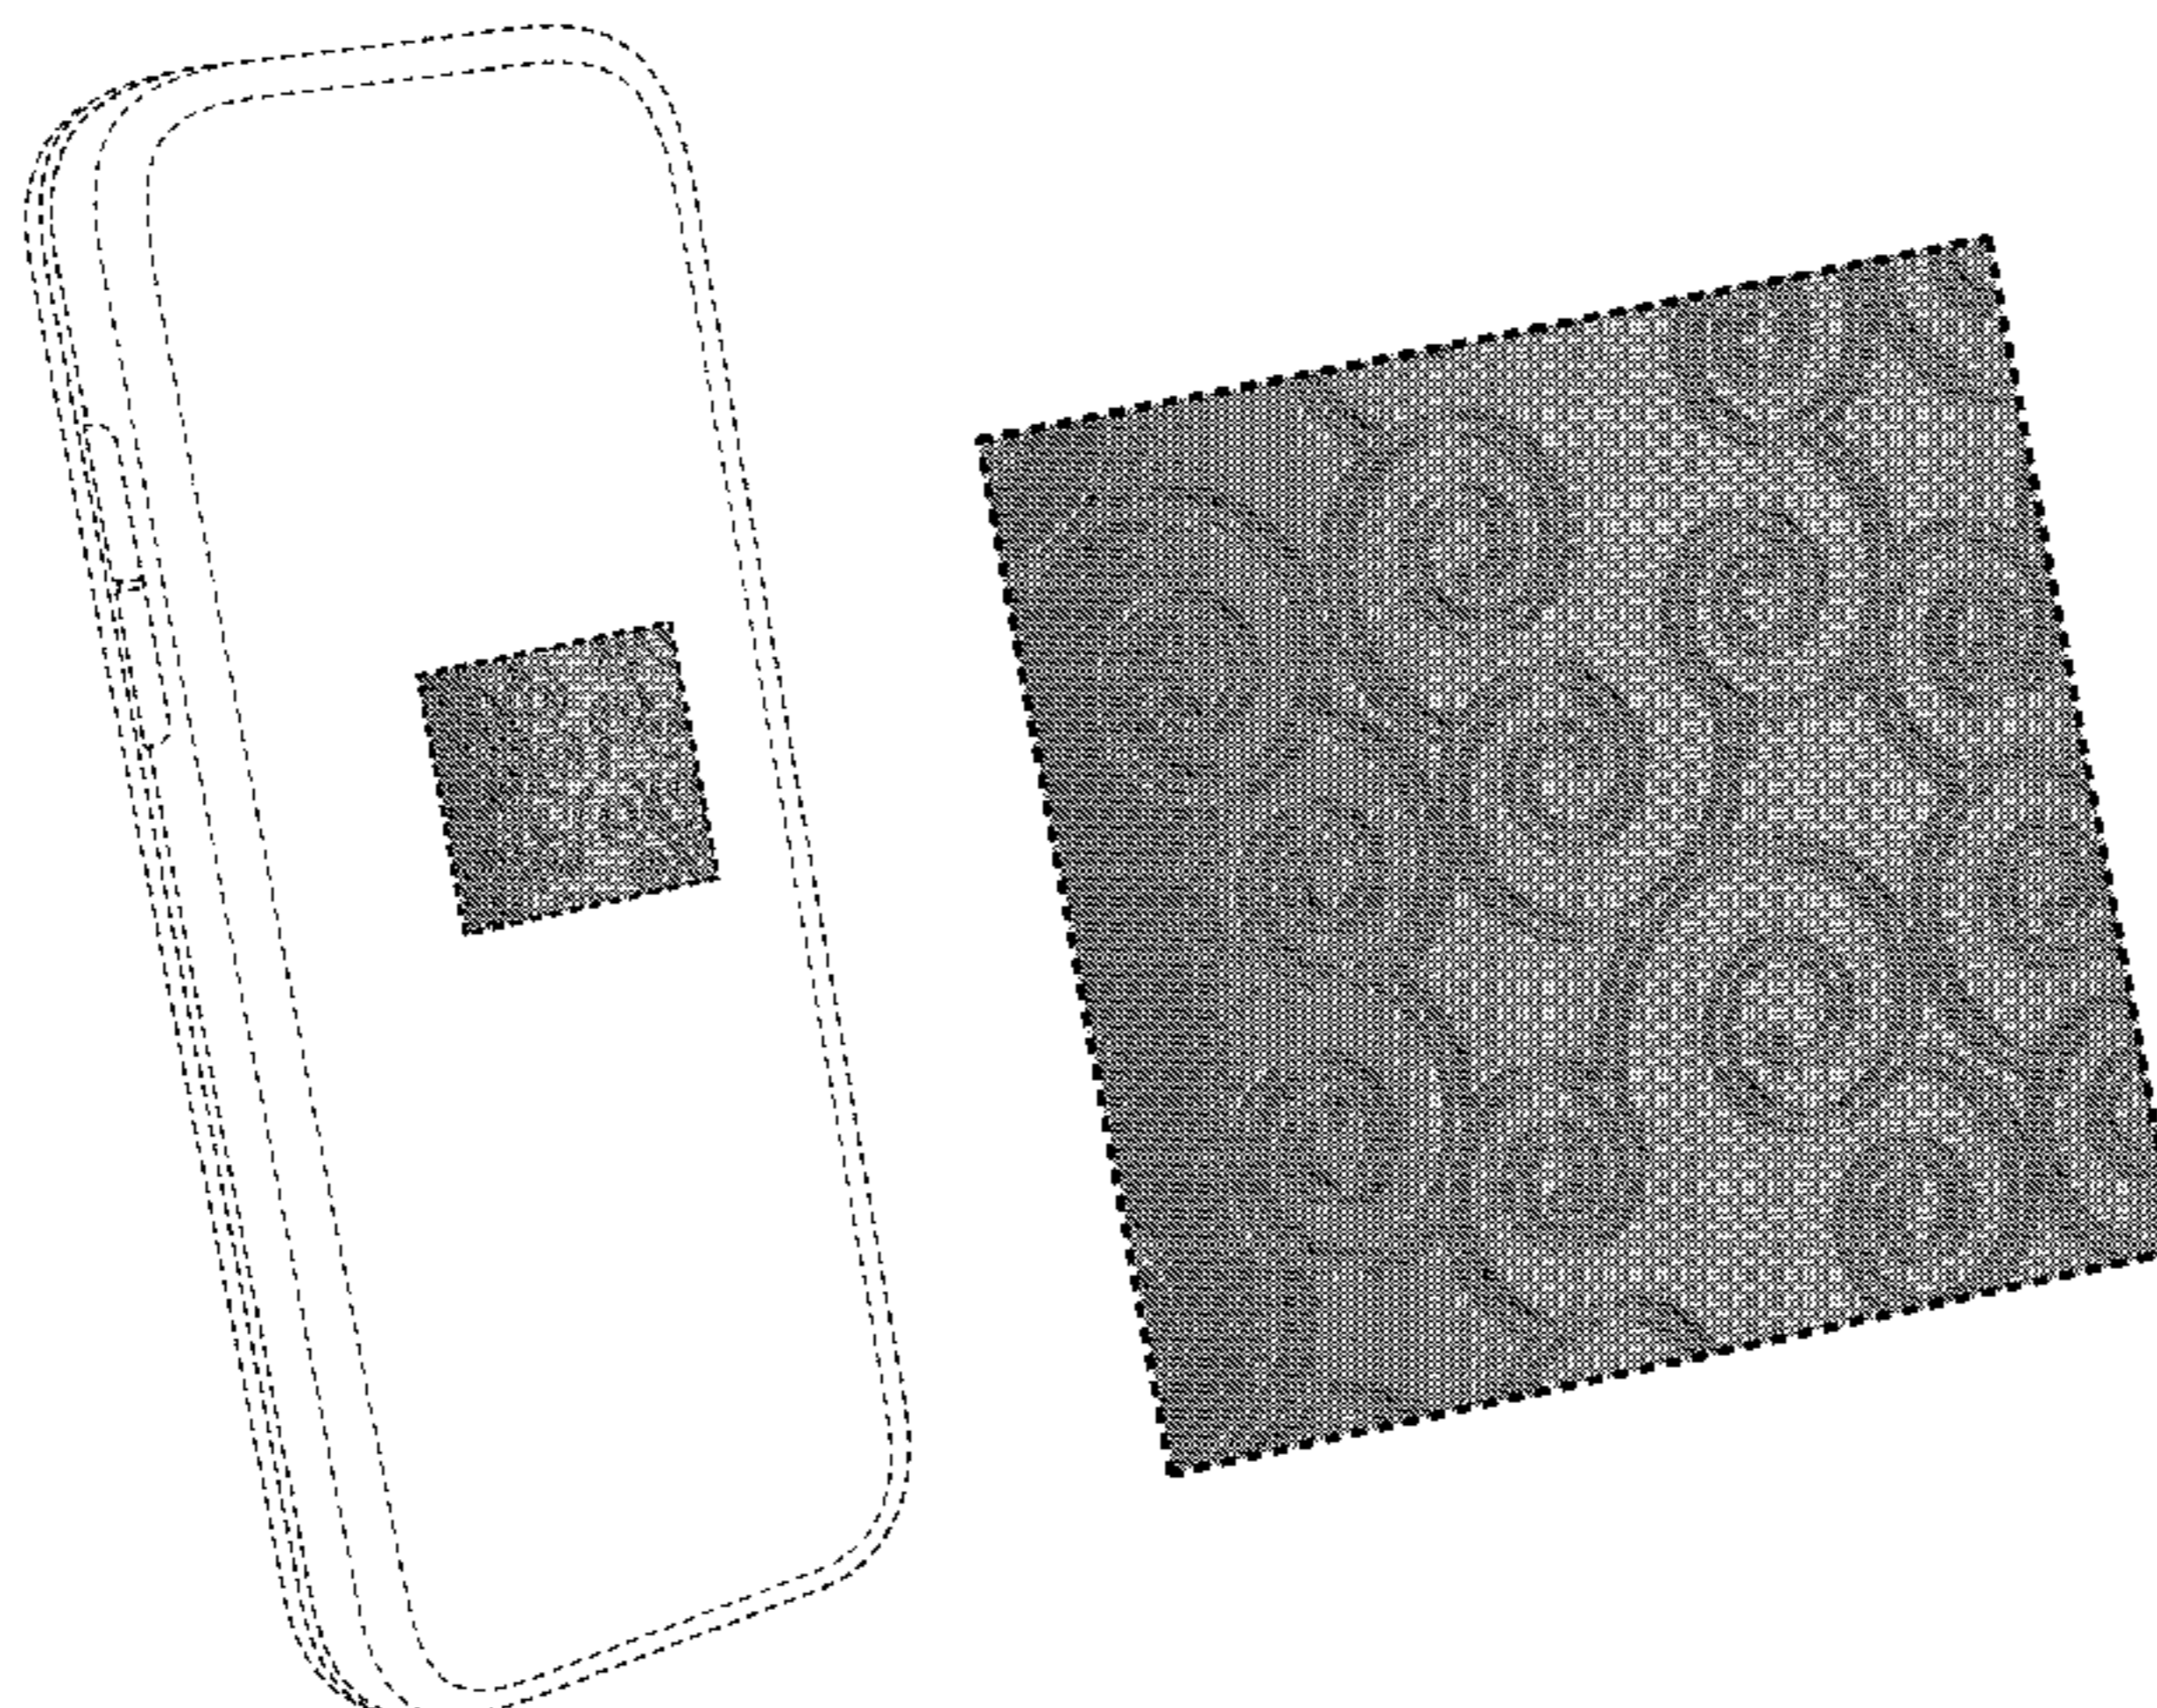

The depicted location and orientation of the claimed portion of the rear panel (shown in solid lines with surface shading) relative to the boundary of the unclaimed portion of the rear panel (shown in broken lines without surface shading) form no part of the claimed design.

The broken line immediately adjacent to the portion of the rear panel shown in solid lines represents an unclaimed boundary of the claimed design.

The broken line showing of the remainder of the handset depicts environment and forms no part of the claimed design.
