(57) **CLAIM**

The ornamental design for a resonance chamber axially disposed on an emission system conduit, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a resonance chamber of the present invention;

FIG. 2 is a right side elevational view thereof, a left side elevation view thereof being a mirror image thereof;

FIG. 3 is a top plan view thereof, a bottom plan view thereof being a mirror image thereof; and,

FIG. 4 is a front side elevation view thereof, a back side elevational view thereof being a mirror image thereof.

The broken lines shown in the drawings are directed toward environment, are for informational purposes only, and form no part of the claimed design. The boundary lines of the conduit are shown in evenly spaced, dashed lines and are not intended to form part of the claimed design.
