(57) **CLAIM**

The ornamental design for an antler-shaped arrow quiver, as
shown and described.

DESCRIPTION

FIG. 1 is a perspective view illustrating a first embodiment of
the design for an antler-shaped arrow quiver;

FIG. 2 is a top view of the first embodiment;

FIG. 3 is a bottom view of the first embodiment;

FIG. 4 is a front view thereof illustrating an arrow inserted
into the arrow quiver, the arrow being disclaimed as part of the
claim;

FIG. 5 is a right-side view of the first embodiment;

FIG. 6 is a back view of the first embodiment;

FIG. 7 is a left-side view of the first embodiment;

FIG. 8 is cross section view taken along 8—8;

FIG. 9 is a bottom view of the arrow holder, removed for
clarity;

FIG. 10 is a perspective view illustrating a second embodi-
ment of the design for an antler-shaped arrow quiver;

FIG. 11 is a top view of the second embodiment;

FIG. 12 is a bottom view of the second embodiment;

FIG. 13 is a front view thereof illustrating an arrow inserted
into the arrow quiver, the arrow being disclaimed as part of the
claim;

FIG. 14 is a right-side view of the second embodiment;

FIG. 15 is a back view of the second embodiment;

FIG. 16 is a left-side view of the second embodiment;

FIG. 17 is a cross section view taken along 17—17; and,

FIG. 18 is a bottom view of the arrow holder, removed for
clarity.

Two embodiments of the invention are provided. The first
illustrated embodiment (FIGS. 1–9) shows the structure of
the claimed antler-shaped arrow quiver with a first stem size.
The second illustrated embodiment (FIGS. 10–18) shows the
structure of the claimed antler-shaped arrow quiver with a
second stem size. The broken line showing of an arrow in
FIGS. 4 and 13 and indicia in FIGS. 2, 3, 9, 11, 12 and 18 is
included for the purpose of illustrating environment and
forms no part of the claimed design.
