(57) **CLAIM**

The ornamental design for a handset battery latch panel for a handset, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a handset battery latch panel showing my new design; and,

FIG. 2 is a front view thereof.

The broken line showing of the environmental structures of the handset is for illustrative purposes only and forms no part of the claimed design.

The features within the periphery of the outermost circle, near the bottom right side of the handset battery latch panel, protrude slightly from the surrounding surface. The surfaces of the features within the circular periphery have edges with rounded contours.
