FIG. 9 is a reference view showing an example of the reentering corner formative member that is in use at a corner of a wall. As shown in FIG. 9, the reentering corner formative member in which the claimed design is applied can be installed at a corner of a wall and between a wall and an outer decorative wall.

The design is shown broken away in the FIGS. 1, 2, 5, 6, and 7 views in order to indicate that a specific length of reentering corner formative member forms no part of the claimed design. In FIG. 8, the broken lines define the bounds of the partial view, and in FIG. 9, the broken lines depict environmental structure that forms no part of the claimed design.
