(57) **CLAIM**

The ornamental design for a flexible attachment strip having a plurality of forward facing LEDs, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a flexible attachment strip having a plurality of forward facing LEDs showing my new design; FIG. 2 is a bottom plan view thereof;

FIG. 3 is a front elevational view thereof,

FIG. 4 is a rear elevational view thereof,

FIG. 5 is a right side elevational view, the left side being a mirror image;

FIG. 6 is a perspective view of the flexible attachment strip flexed in a wave pattern and having attached four forward facing LEDs. The light illuminated from the LEDs is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 7 is a front elevational view of an attachment strip attached to an upper surface of a typical vehicle grill. The vehicle grill is shown in broken lines for illustrative purposes only and forms no part of the claimed design;

FIG. 8 is a front elevational view of an attachment strip attached to an upper surface of a typical vehicle right side-view mirror, the vehicle mirror is shown in broken lines for illustrative purposes only and forms no part of the claimed design; and,

FIG. 9 is a front elevational view of an attachment strip attached to an upper surface of a typical vehicle left side-view mirror, the vehicle mirror is shown in broken lines for illustrative purposes only and forms no part of the claimed design.
