(57) **CLAIM**

The ornamental design for a garlic press, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view showing the ornamental design for a garlic press according to the invention;

FIG. 2 is a side view showing the ornamental design for a garlic press according to the invention;

FIG. 3 is a top view showing the ornamental design for a garlic press according to the invention;

FIG. 4 is one end view showing the ornamental design for a garlic press according to the invention;

FIG. 5 is a bottom perspective view showing the ornamental design for a garlic press according to the invention;

FIG. 6 is a perspective view showing the ornamental design for a garlic press according to the invention with the garlic press in an open position;

FIG. 7 is a perspective view showing the ornamental design for a garlic press according to the invention with the garlic press in an open position;

FIG. 8 is a perspective view showing the ornamental design of the handle of a garlic press according to the invention;

FIG. 9 is a perspective view showing the ornamental design of the handle of a garlic press according to the invention;

FIG. 10 is a bottom perspective showing the ornamental design of the handle of a garlic press according to the invention;

FIG. 11 is a top view showing the ornamental design of a base portion of a garlic press according to the invention;

FIG. 12 is a perspective view showing the ornamental design of a base portion of a garlic press according to the invention;

FIG. 13 is a bottom perspective view showing the ornamental design of a base portion of a garlic press according to the invention;

FIG. 14 is a top perspective view showing the ornamental design of a screen portion of a garlic press according to the invention;

FIG. 15 is a bottom perspective view showing the ornamental design of a screen portion of a garlic press according to the invention; and,

FIG. 16 is a side perspective view showing the ornamental design of a screen portion of a garlic press according to the invention.

The handle, base portion and screen are shown separately for clarity of illustration.
