(57) **CLAIM**

The ornamental design for a deployable sensor module, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view from above and one side of an embodiment of a deployable sensor module in a stowed configuration;

FIG. 2 is a front elevation view of an embodiment of a deployable sensor module in a stowed configuration;

FIG. 3 is a top view of an embodiment of a deployable sensor module in a stowed configuration;

FIG. 4 is a front perspective view from above of an embodiment of a deployable sensor module in a partially deployed configuration; and,

FIG. 5 is a front perspective view of an embodiment of a deployable sensor module in a fully deployed.

In FIGS. 1, 3, 4, and 5, the broken lines depict portions of the module that form no part of the claimed design.
