(57) **CLAIM**

The ornamental design for a paper towel dispenser, as shown and described.

DESCRIPTION

FIG. 1 is a front, left side and top perspective view of a first embodiment of a paper towel dispenser showing my new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left side elevational view thereof, the right side elevational view being a mirror image thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a top plan view thereof;

FIG. 6 is a rear elevational view thereof;

FIG. 7 is a front, left side and top perspective view of a second embodiment of a paper towel dispenser showing my new design;

FIG. 8 is a front elevational view thereof;

FIG. 9 is a left side elevational view thereof, the right side elevational view being a mirror image thereof;

FIG. 10 is a bottom plan view thereof;

FIG. 11 is a top plan view thereof, the rear elevational view being the same as that of FIG. 6;

FIG. 12 is a front, left side and top perspective view of a third embodiment of a paper towel dispenser showing my new design;

FIG. 13 is a left side elevational view thereof, the right side elevational view being a mirror image thereof;

FIG. 14 is a bottom plan view thereof;

FIG. 15 is a top plan view thereof, the front elevational view being the same as that of FIG. 8 and the rear elevational view being the same as that of FIG. 6;

FIG. 16 is a front, left side and top perspective view of a fourth embodiment of a paper towel dispenser showing my new design;

FIG. 17 is a front elevational view thereof;

FIG. 18 is a left side elevational view thereof, the right side elevational view being a mirror image thereof, the bottom

plan view, top plan view and rear elevational views being the same as those of FIGS. 4–6, respectively;

FIG. 19 is a front, left side and top perspective view of a fifth embodiment of a paper towel dispenser showing my new design;

FIG. 20 is a left side elevational view thereof, the right side elevational view being a mirror image thereof;

FIG. 21 is a bottom plan view thereof;

FIG. 22 is a top plan view thereof, the front elevational view being the same as that of FIG. 8 and the rear elevational view being the same as that of FIG. 6;

FIG. 23 is a front, left side and top perspective view of a sixth embodiment of a paper towel dispenser showing my new design;

FIG. 24 is a left side elevational view thereof, the right side elevational view being a mirror image thereof;

FIG. 25 is a bottom plan view thereof;

FIG. 26 is a top plan view thereof, the front elevational view being the same as that of FIG. 8 and the rear elevational view being the same as that of FIG. 6;

FIG. 27 is a front, left side and top perspective view of a seventh embodiment of a paper towel dispenser showing my new design; and,

FIG. 28 is a front elevational view thereof, the left side elevational view, bottom plan view, top plan view and rear elevational view being the same as those of FIGS. 3–6, respectively.

The oblique-line shading in the views is understood to represent a frosted, translucent material, and the broken-line disclosure is understood to represent a portion of the article in which the claimed design is embodied, but which forms no part of the claimed design.
