(57) **CLAIM**

The ornamental design for a suture wing for flexible tubing,  
as shown and described.

**DESCRIPTION**

FIG. 1 is an isometric view from above of a suture wing for  
flexible tubing according to the present invention, shown  
affixed to flexible tubing (in dashed lines); the flexible tubing  
does not form part of the present invention.

FIG. 2 is a top view of the suture wing for flexible tubing  
shown in FIG. 1.

FIG. 3 is a right side view of the suture wing for flexible  
tubing shown in FIG. 1.

FIG. 4 is a bottom view of the suture wing for flexible tubing  
shown in FIG. 1.

FIG. 5 is an isometric view from below of the suture wing for  
flexible tubing shown in FIG. 1.

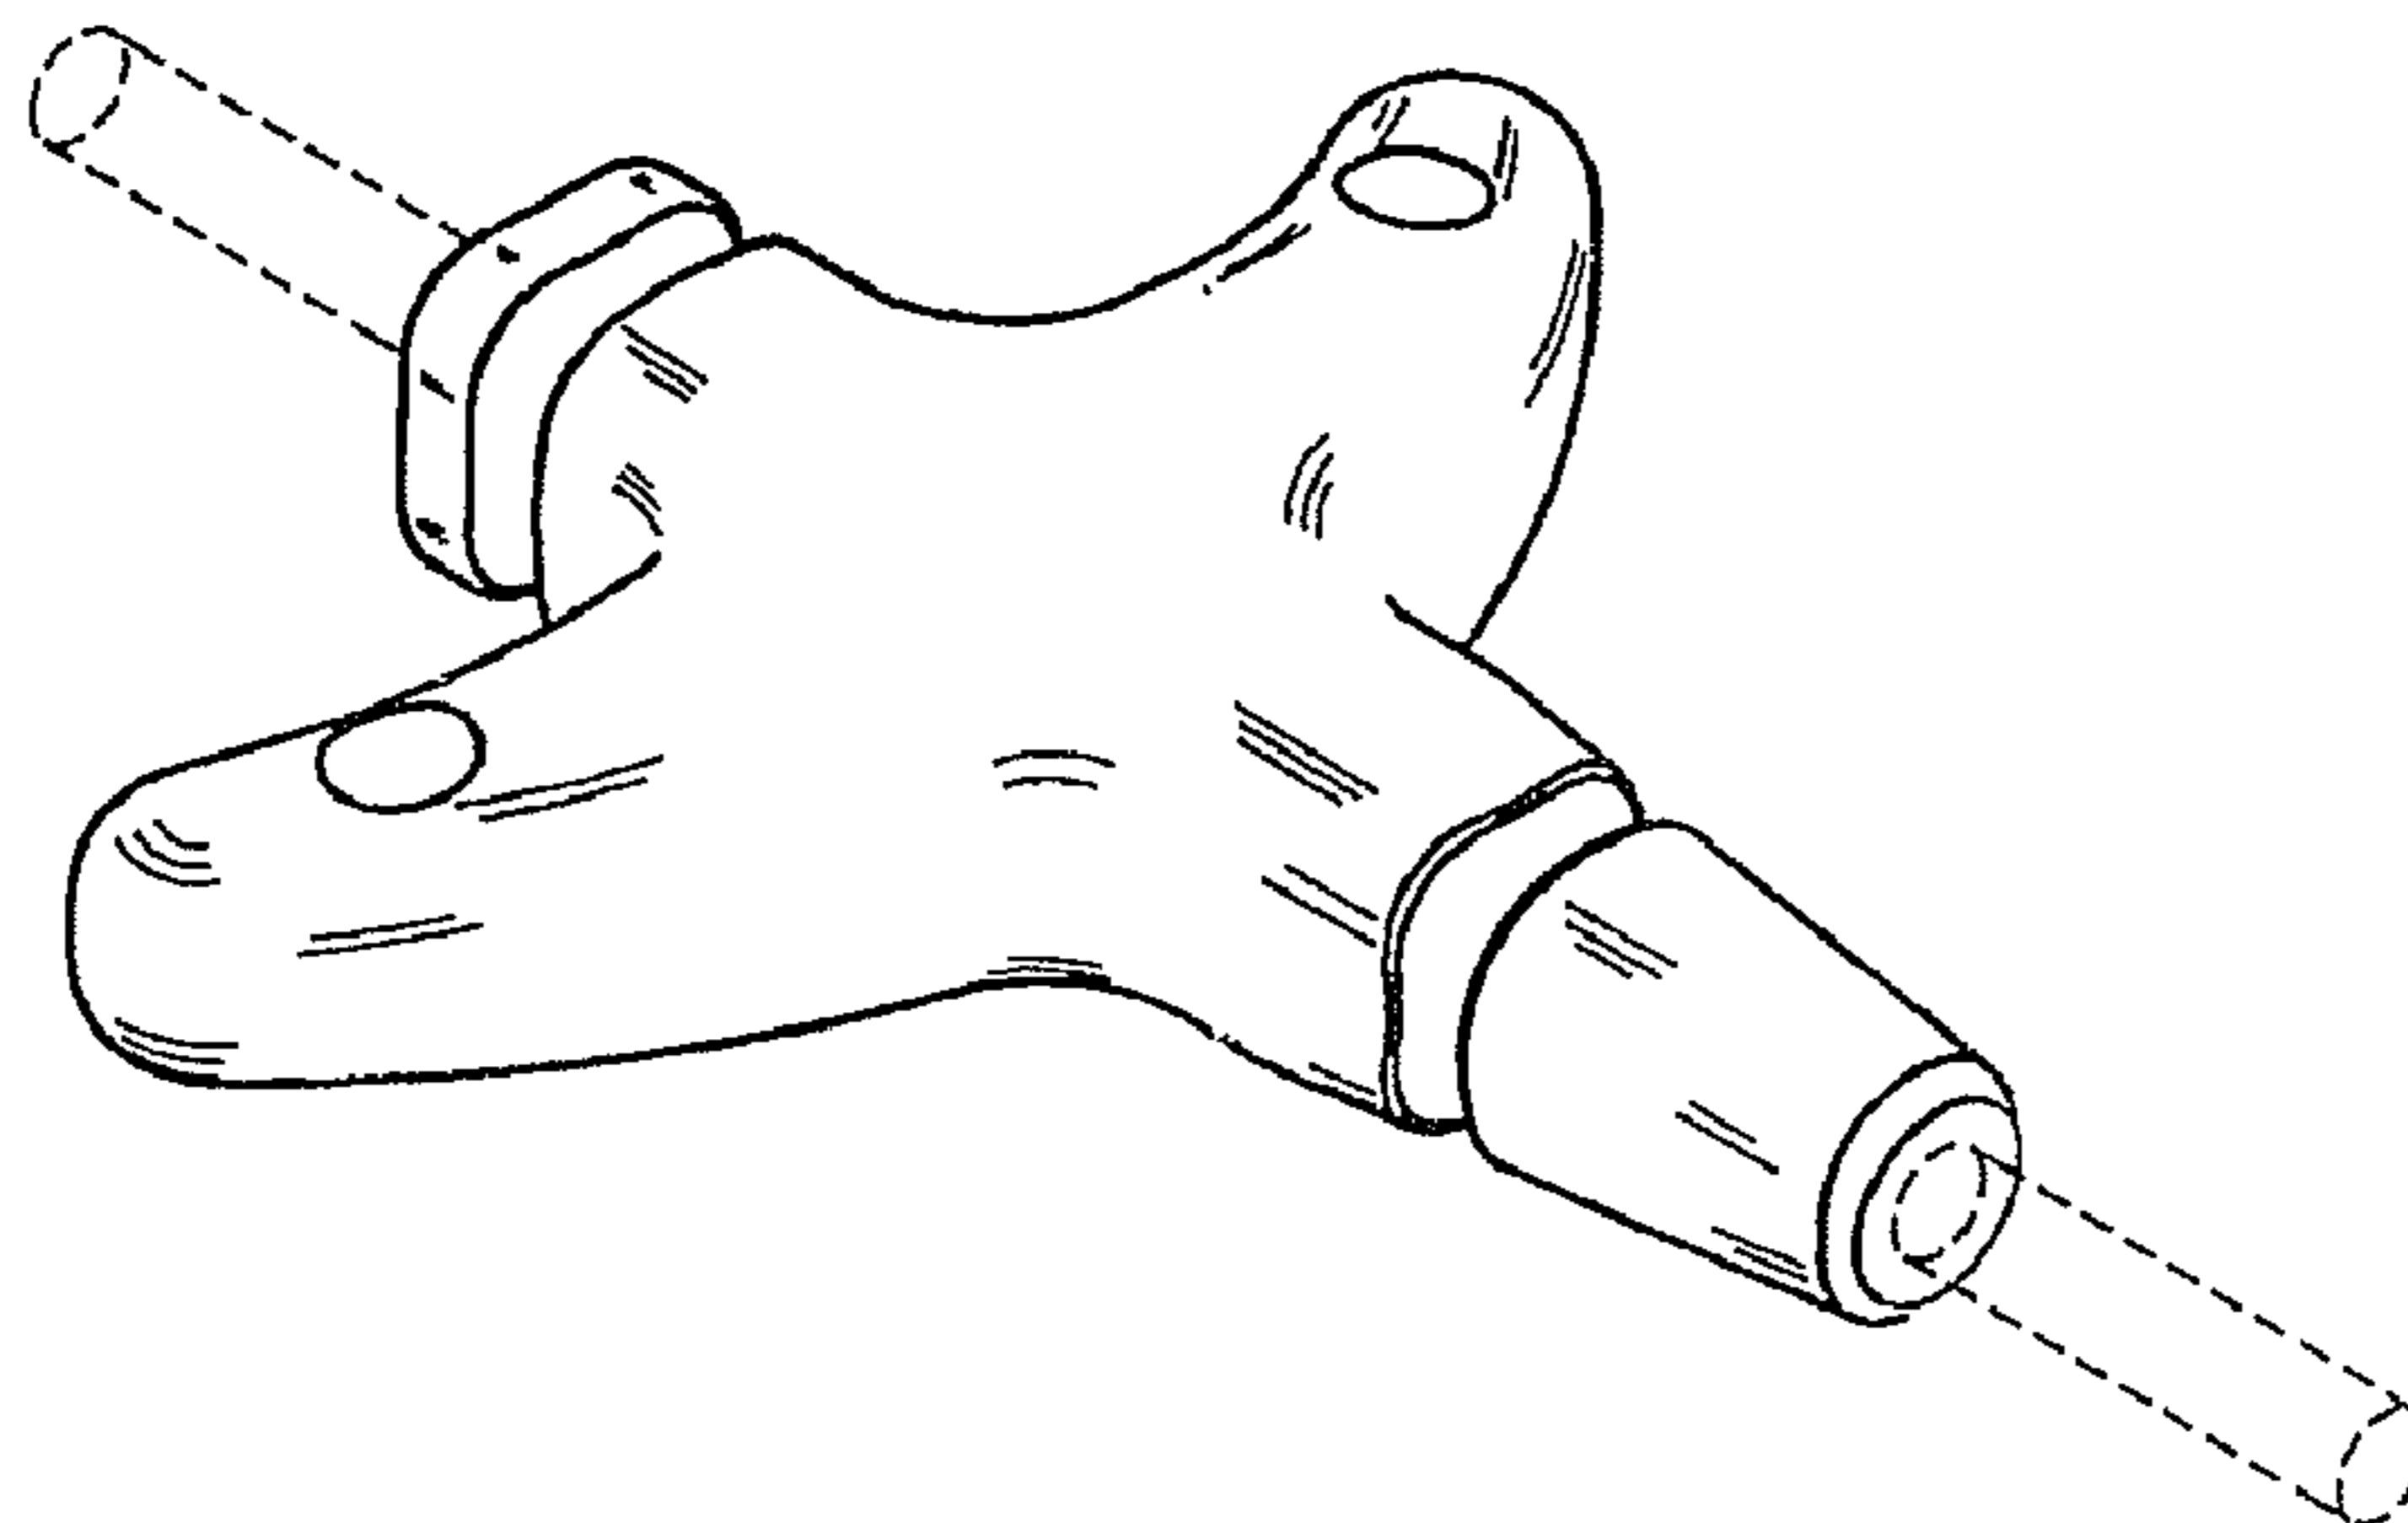

FIG. 6 is a distal end view of the suture wing for flexible  
tubing shown in FIG. 1.

FIG. 7 is a left side view of the suture wing for flexible tubing  
shown in FIG. 1; and,

FIG. 8 is a proximal end view of the suture wing for flexible  
tubing shown in FIG. 1.

The broken lines depict environmental structure that forms no  
part of the claimed design.
