(57) **CLAIM**

The ornamental design for a substrate with camouflage pattern, as shown and described.

DESCRIPTION

The sole FIGURE is a top plan view of a substrate with camouflage pattern.

The broken line boundary in the drawing shows a single repeat unit that repeats uniformly with the indicated offset throughout the length and width of the substrate with camouflage pattern. The dash-dot-dash boundaries of the substrate indicate that a specific length and width forms no part of the claimed design.
