(57) **CLAIM**

The ornamental design for a multi-directional surveillance and targeting device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective environmental view of a multi-directional surveillance and targeting device showing my new design;

FIG. 2 is a perspective view of the multi-directional surveillance and targeting device;

FIG. 3 is a top view of the multi-directional surveillance and targeting device;

FIG. 4 is a front view of the multi-directional surveillance and targeting device, the rear view being a mirror image thereof;

FIG. 5 is a right hand side view of the multi-directional surveillance and targeting device;

FIG. 6 is a rear view of the mirror of FIG. 4 taken generally along the line 6—6 of FIG. 5, the rear view of the other mirror being a mirror image thereof;

FIG. 7 is a bottom view of the multi-directional surveillance and targeting device; and,

FIG. 8 is a left hand side view of the multi-directional surveillance and targeting device.
