(57) **CLAIM**

The ornamental design for a portable electronic device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the portable electronic device with the portable electronic device shown in an open condition. The open top cover has been shown as fragmentary for ease of illustration, the portion of the interior of the device that is not shown is not a part of the claimed design whereas the remainder of the top cover has the appearance shown in the corresponding views in the closed position. The entire interior surface of the portable electronic device on which key buttons and display are shown, above and below the hinge surfaces, is not part of the claimed design. The broken lines showing display frame and key buttons in FIG. 1 are part of the environment and are for illustrative purposes only. The broken lines form no part of the claimed design.

FIG. 2 is a front perspective view of the portable electronic device with the portable electronic device shown in a closed condition.

FIG. 3 is a left side elevational view of the portable electronic device.

FIG. 4 is a top plan view of the portable electronic device.

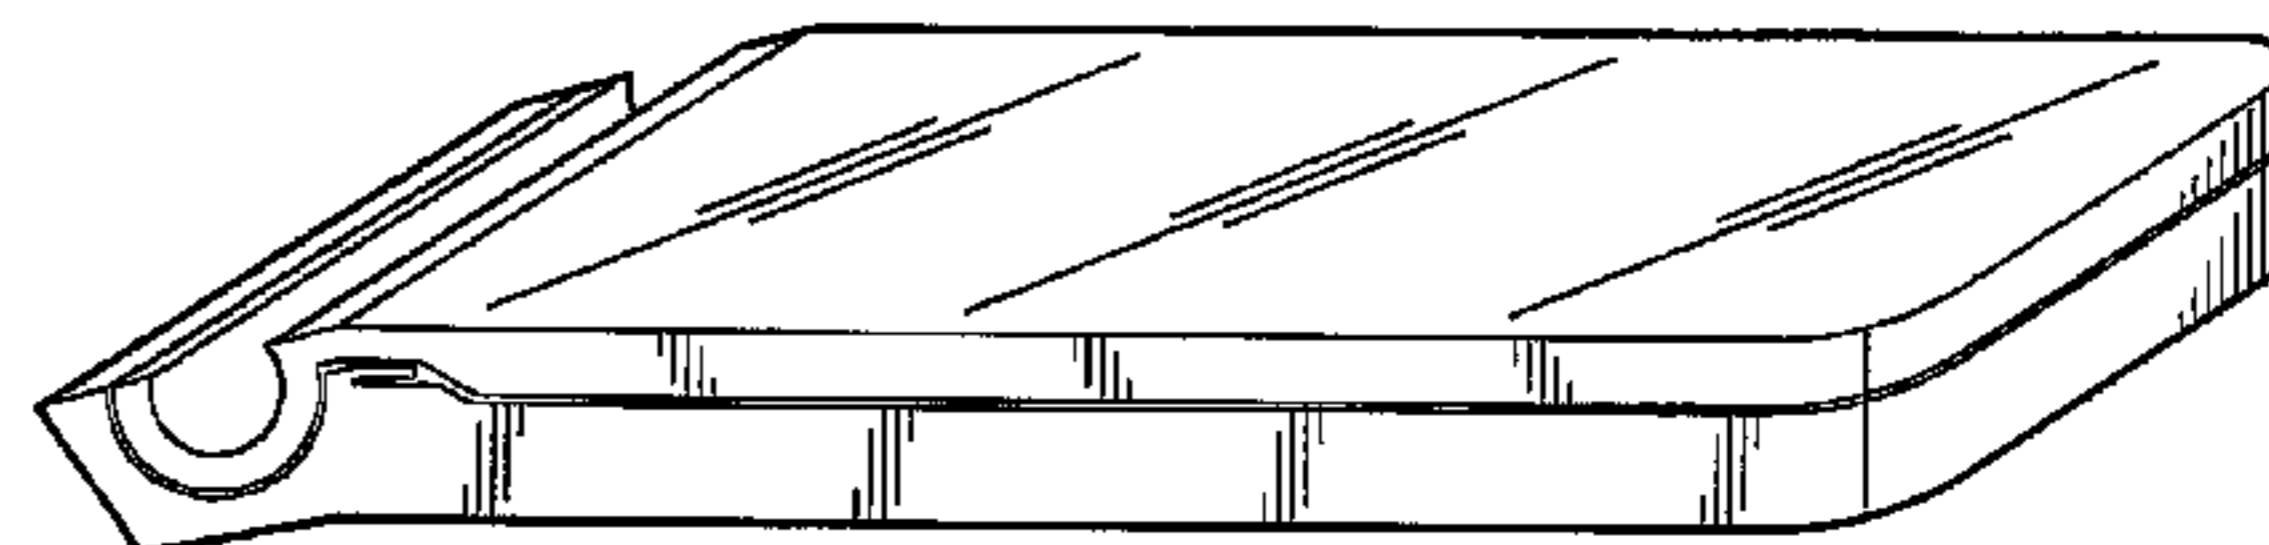

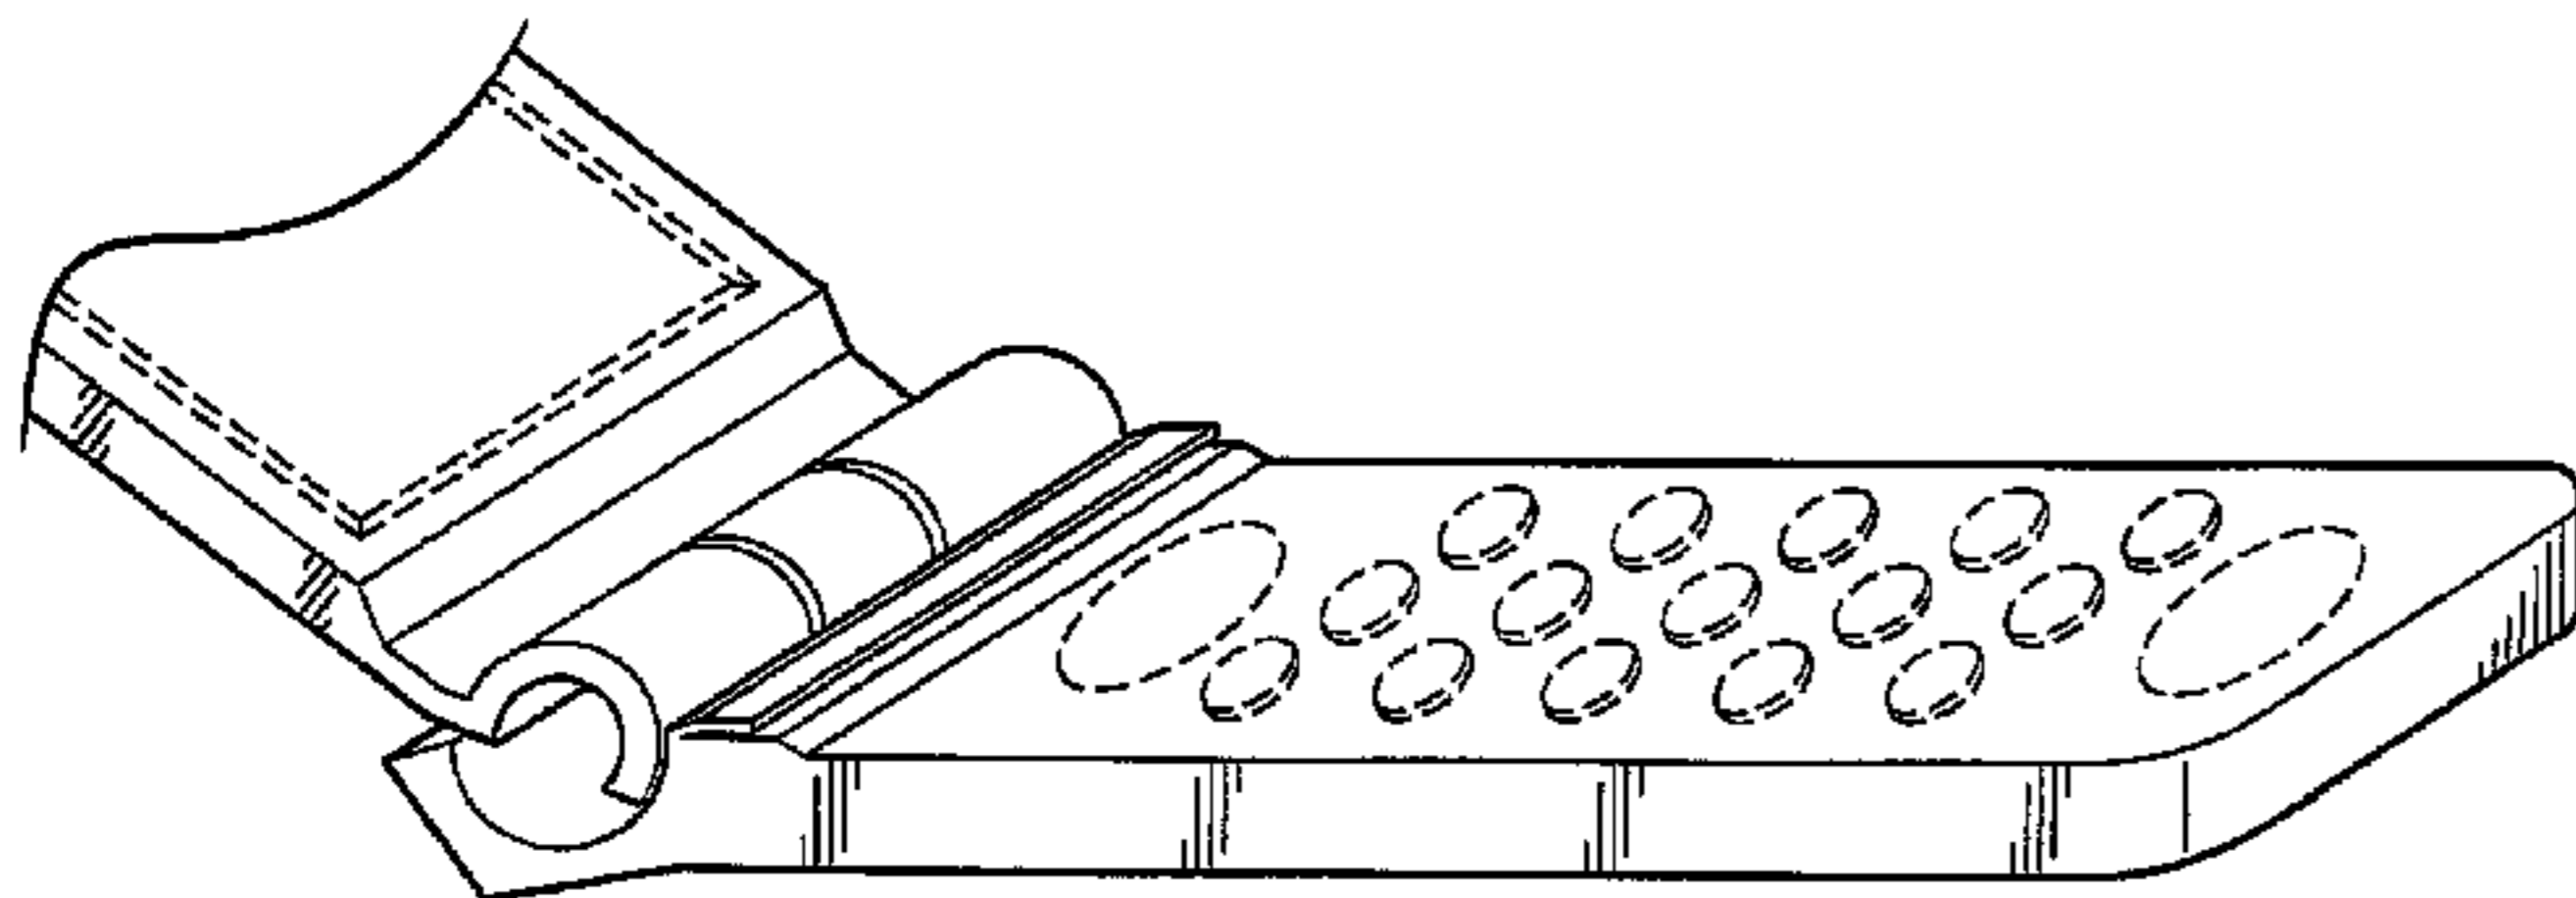

FIG. 5 is a front elevational view of the portable electronic device.

FIG. 6 is a rear elevational view of the portable electronic device.

FIG. 7 is a bottom plan view of the portable electronic device; and,

FIG. 8 is a right side elevational view of the portable electronic device.
