(57) **CLAIM**

We claim the ornamental design for a network camera, as shown and described.

**DESCRIPTION**

FIG. 1 is a top, front and right side perspective view of a network camera of the present invention;

FIG. 2 is a front view thereof;

FIG. 3 is a rear view thereof;

FIG. 4 is a left side view thereof;

FIG. 5 is a right side view thereof;

FIG. 6 is a top view thereof;

FIG. 7 is a bottom view thereof;

FIG. 8 is a top, front and right side perspective view of a network camera in a different environment;

FIG. 9 is a front view thereof;

FIG. 10 is a rear view thereof;

FIG. 11 is a left side view thereof;

FIG. 12 is a left side view thereof;

FIG. 13 is a top view thereof; and,

FIG. 14 is a bottom view thereof.

The broken line showing of network camera is included for the purpose of illustrating environment and forms no part of the claimed design. In the first embodiment, the front surface including the bulge is made transparent or translucent. In the second embodiment, the bulge in the front surface is made transparent or translucent.
