(57) **CLAIM**

The ornamental design for a motorcycle fender, as shown and described.

DESCRIPTION

FIG. 1 is a first perspective, generally front-bottom view of a first embodiment of my design.

FIG. 2 is second perspective, generally front-right view of the first embodiment of my design.

FIG. 3 is third perspective, generally front-right view of the first embodiment of my design.

FIG. 4 is a rear view of the first embodiment of my design.

FIG. 5 is a top view of the first embodiment of my design.

FIG. 6 is a generally right side view of the first embodiment of my design.

FIG. 7 is a generally left side view of the first embodiment of my design.

FIG. 8 is a front view of the first embodiment of my design.

FIG. 9 is a perspective bottom view of the first embodiment of my design.

FIG. 10 is a first perspective, generally front-bottom view of a second embodiment of my design.

FIG. 11 is second perspective, generally front-right view of the second embodiment of my design.

FIG. 12 is third perspective, generally front-right view of the second embodiment of my design.

FIG. 13 is a rear view of the second embodiment of my design.

FIG. 14 is a top view of the second embodiment of my design.

FIG. 15 is a generally right side view of the second embodiment of my design.

FIG. 16 is a generally left side view of the second embodiment of my design.

FIG. 17 is a front view of the second embodiment of my design; and,

FIG. 18 is a perspective bottom view of the second embodiment of my design.
