(57) **CLAIM**

The ornamental design for a modular cabinet, as shown and
described.

DESCRIPTION

FIG. 1 is a left front perspective view of the design of the
modular drawers;

FIG. 2 is a front elevational view thereof. The ornamental
design is not visible in a rear view, top plan view, right or left
side views or bottom view; and,

FIG. 3 is an enlarged view of the pattern on the modular
drawer of the embodiment as shown in FIG. 2.

The characteristic feature of the ornamental design resides in
the use of a pattern on the modular drawer.

Those portions of modular drawers in broken lines, specifi-
cally the surfaces of the cabinet enclosing the modular draw-
ers at the top, bottom and side edges of the drawers and the
cabinet surfaces extending back from the face of the drawers
including other surfaces of the modular drawers and the legs
are not part of the claimed invention.
