(57) **CLAIM**

The ornamental design for a personal cooling apparatus, as shown and described.

**DESCRIPTION**

FIG. 1 is a top perspective view of the personal cooling apparatus showing the handle in its normal, retracted position.

FIG. 2 is a front view of the personal cooling apparatus showing the handle in its normal, retracted position.

FIG. 3 is a left side view of the personal cooling apparatus showing the handle in its normal, retracted position. The right side view is a mirror image thereof.

FIG. 4 is a top view of the personal cooling apparatus.

FIG. 5 is a bottom view of the personal cooling apparatus.

FIG. 6 is a rear view of the personal cooling apparatus showing the handle in its normal, retracted position; and,

FIG. 7 is the perspective view of FIG. 1 of the personal cooling apparatus, showing the handle in its extended position.

The nature and intended use of the article in which the design is embodied is as a personal cooling apparatus that contains a liquid and, when pressurized, ejects the liquid in a mist. The personal cooling apparatus is pressurized by pumping a handle in the bottom of the apparatus.
