(57) **CLAIM**

We claim the ornamental design for an pear shaped electronic remote, as shown and described.

DESCRIPTION

FIG. 1 is a perspective illustration of the pear shaped electronic remote according to the invention;

FIG. 2 is a side elevation view of the pear shaped electronic remote according to the invention, the left side view and rear view being identical;

FIG. 3 is a top view of the pear shaped electronic remote according to the present invention;

FIG. 4 is a bottom view of the pear shaped electronic remote according to the present invention; and,

FIG. 5 is a perspective view of the pear shaped electronic remote according to the invention looking from below and slightly to one side.
