(57) **CLAIM**

The ornamental design for crawdad design, as shown and described.

DESCRIPTION

FIG. 1 is a bottom view of a crawdad design detailing our new design according to an embodiment of the present invention.
FIG. 2 is a top view of the crawdad design detailing our new design according to the embodiment of the present invention.

FIG. 3 is a first side view of the crawdad design detailing our new design according to the embodiment of the present invention.

FIG. 4 is a second side view of the crawdad design detailing our new design according to the embodiment of the present invention.

FIG. 5 is a front view of the crawdad design detailing our new design according to the embodiment of the present invention.

FIG. 6 is a rear view of the crawdad design detailing our new design according to the embodiment of the present invention.

FIG. 7 is a top perspective view of the crawdad design detailing our new design according to the embodiment of the present invention.

FIG. 8 is a bottom perspective view of the crawdad design detailing our new design according to the embodiment of the present invention.

FIG. 9 is a first bottom perspective view of a claw of the crawdad design according to the embodiment of the present invention.

FIG. 10 is a second bottom perspective view of the claw of the crawdad design according to the embodiment of the present invention.

FIG. 11 is a first top perspective view of the claw of the crawdad design according to the embodiment of the present invention.

FIG. 12 is a second top perspective view of a claw of the crawdad design according to the embodiment of the present invention.

FIG. 13 is a first side view of the claw of the crawdad design according to the embodiment of the present invention.

FIG. 14 is a second side view of the claw of the crawdad design according to the embodiment of the present invention.

FIG. 15 is a front view of the claw of the crawdad design according to the embodiment of the present invention; and,

FIG. 16 is a top view of the claw of the crawdad design according to the embodiment of the present invention.

The broken line shown of environment and all views are for illustrative purposes only and forms no part of the claimed design.
