(57) **CLAIM**

I claim the ornamental design of a tire tread for off-road tire, as shown and described.

DESCRIPTION

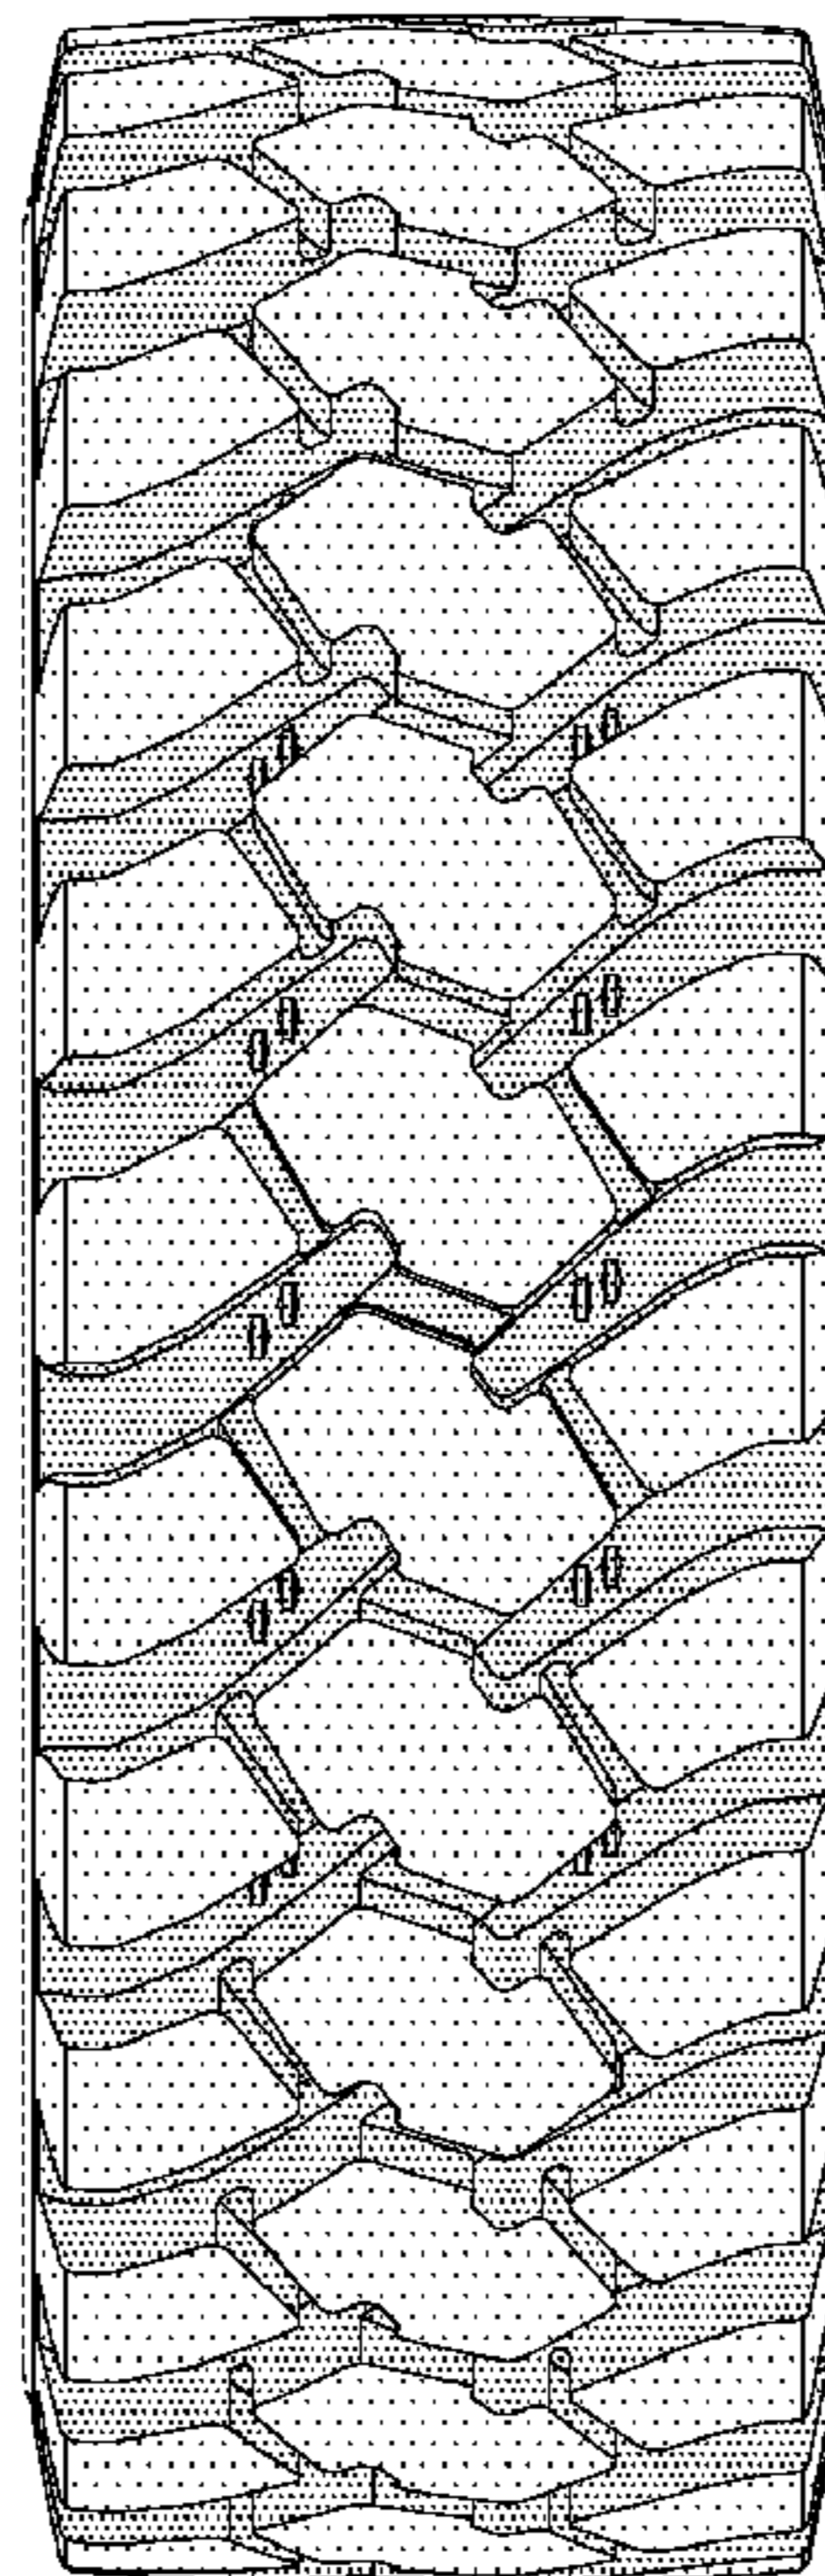

FIG. 1 is a front elevational view showing my new tire tread design for off-road tire;

FIG. 2 is a perspective view of the tire tread shown in FIG. 1, it being understood that the tread pattern repeats uniformly throughout the outer circumference of the tire and the carcass portion of the tire located radially inwardly of the tread forms no part of my new design; and,

FIG. 3 is a side elevational view showing my new tire tread design, the opposite side elevational view being identical thereto.

In the drawings, the broken lines defining the sidewall and inner bead and the peripheral boundary between the tire tread and the sidewall are for illustrative purposes only and form no part of the claimed design.

1 Claim, 3 Drawing Sheets

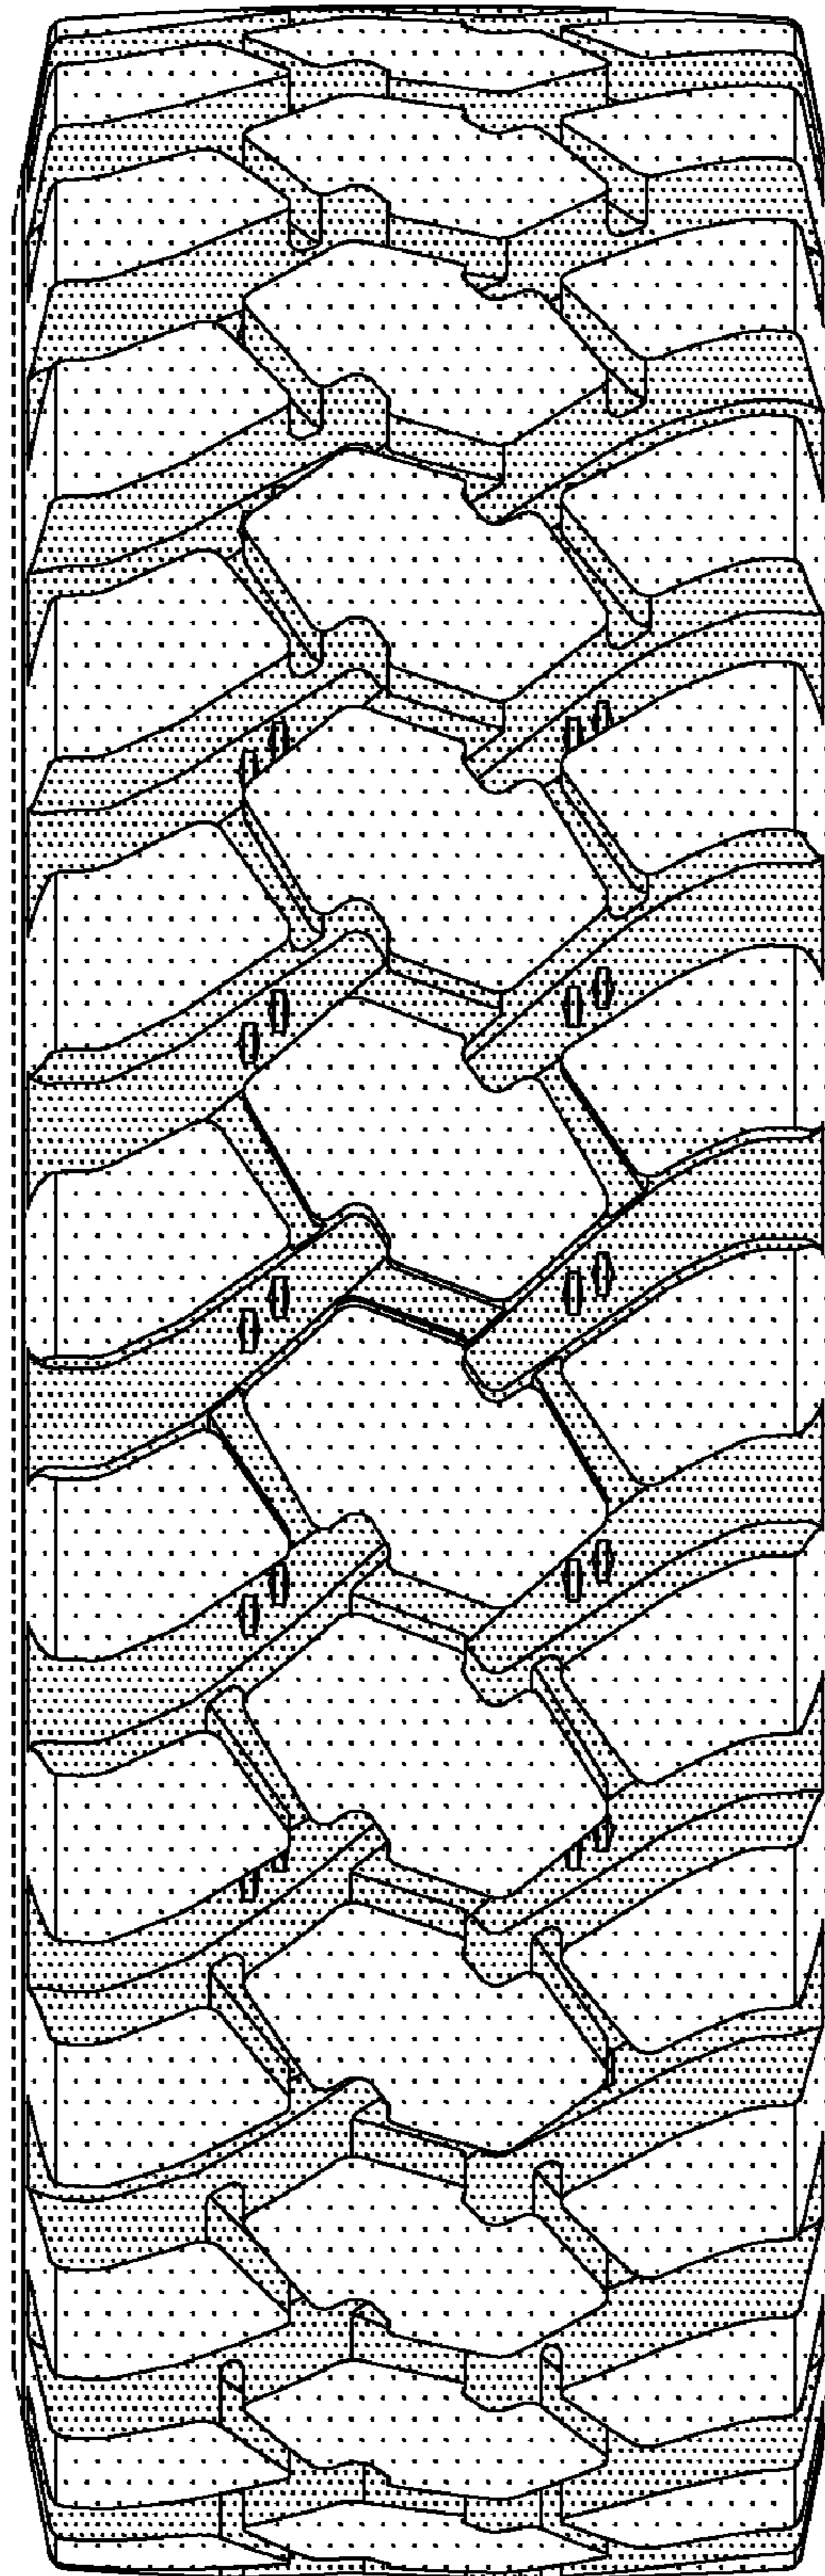

FIG. 1

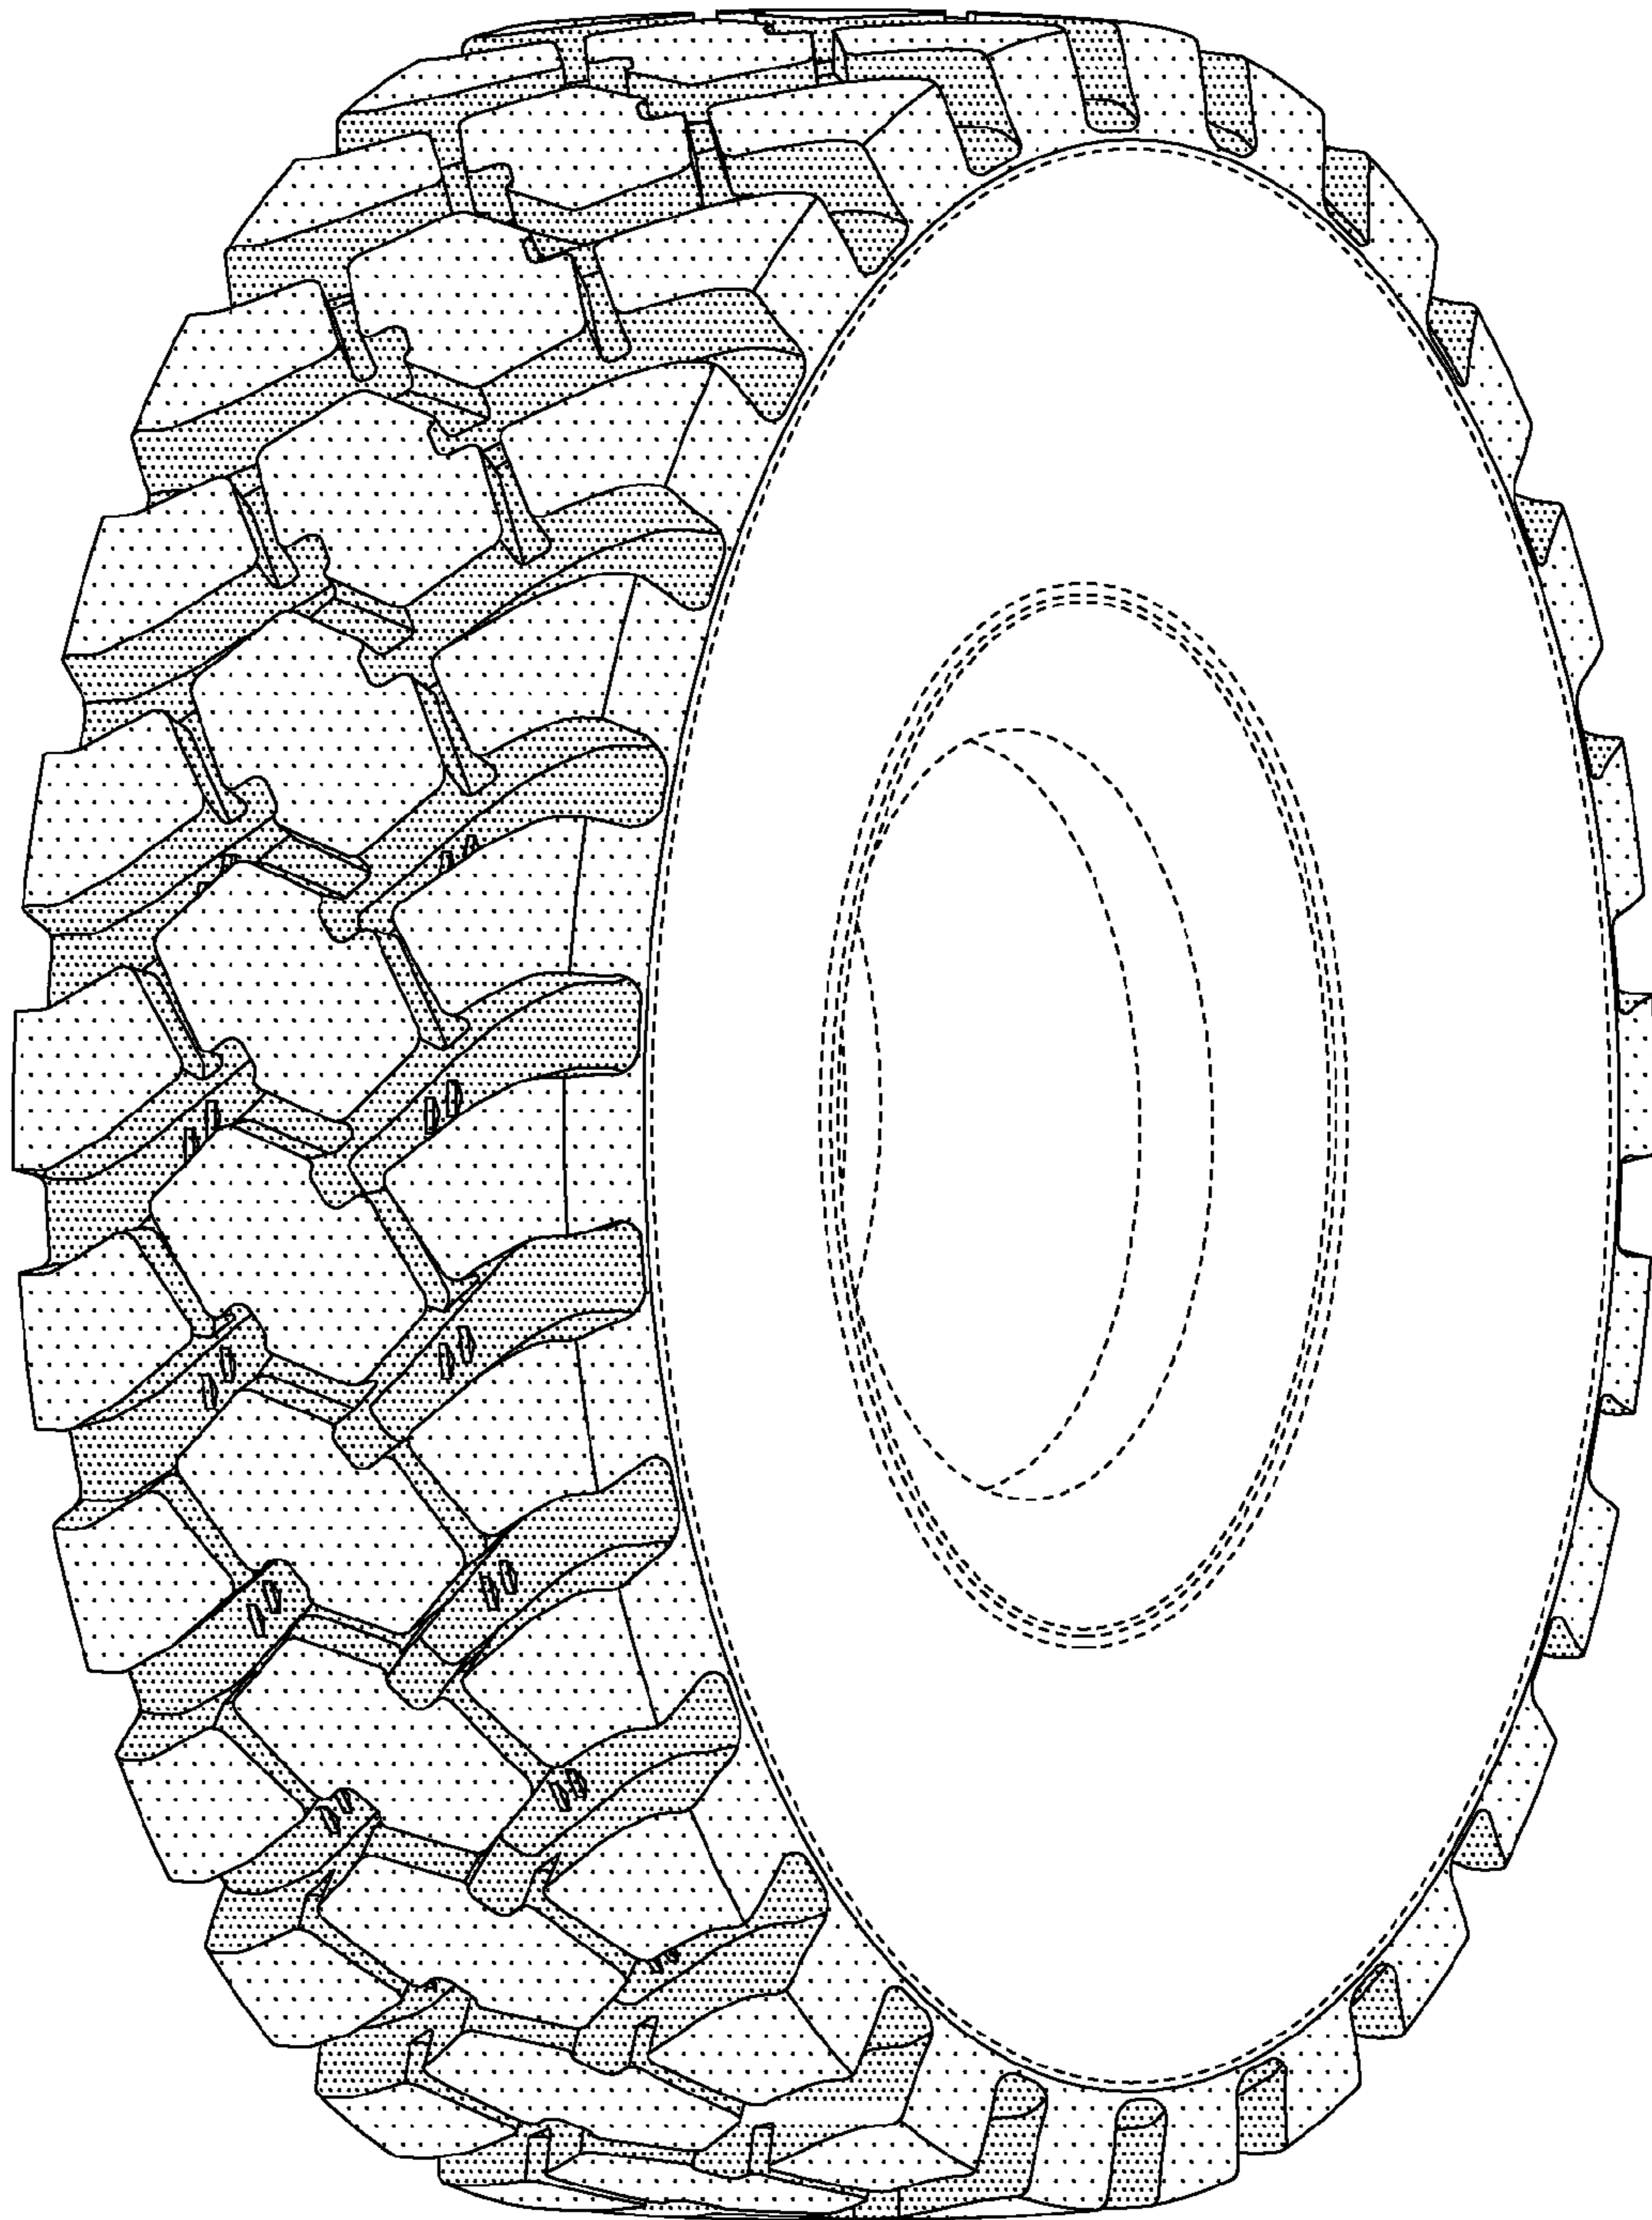

FIG. 2

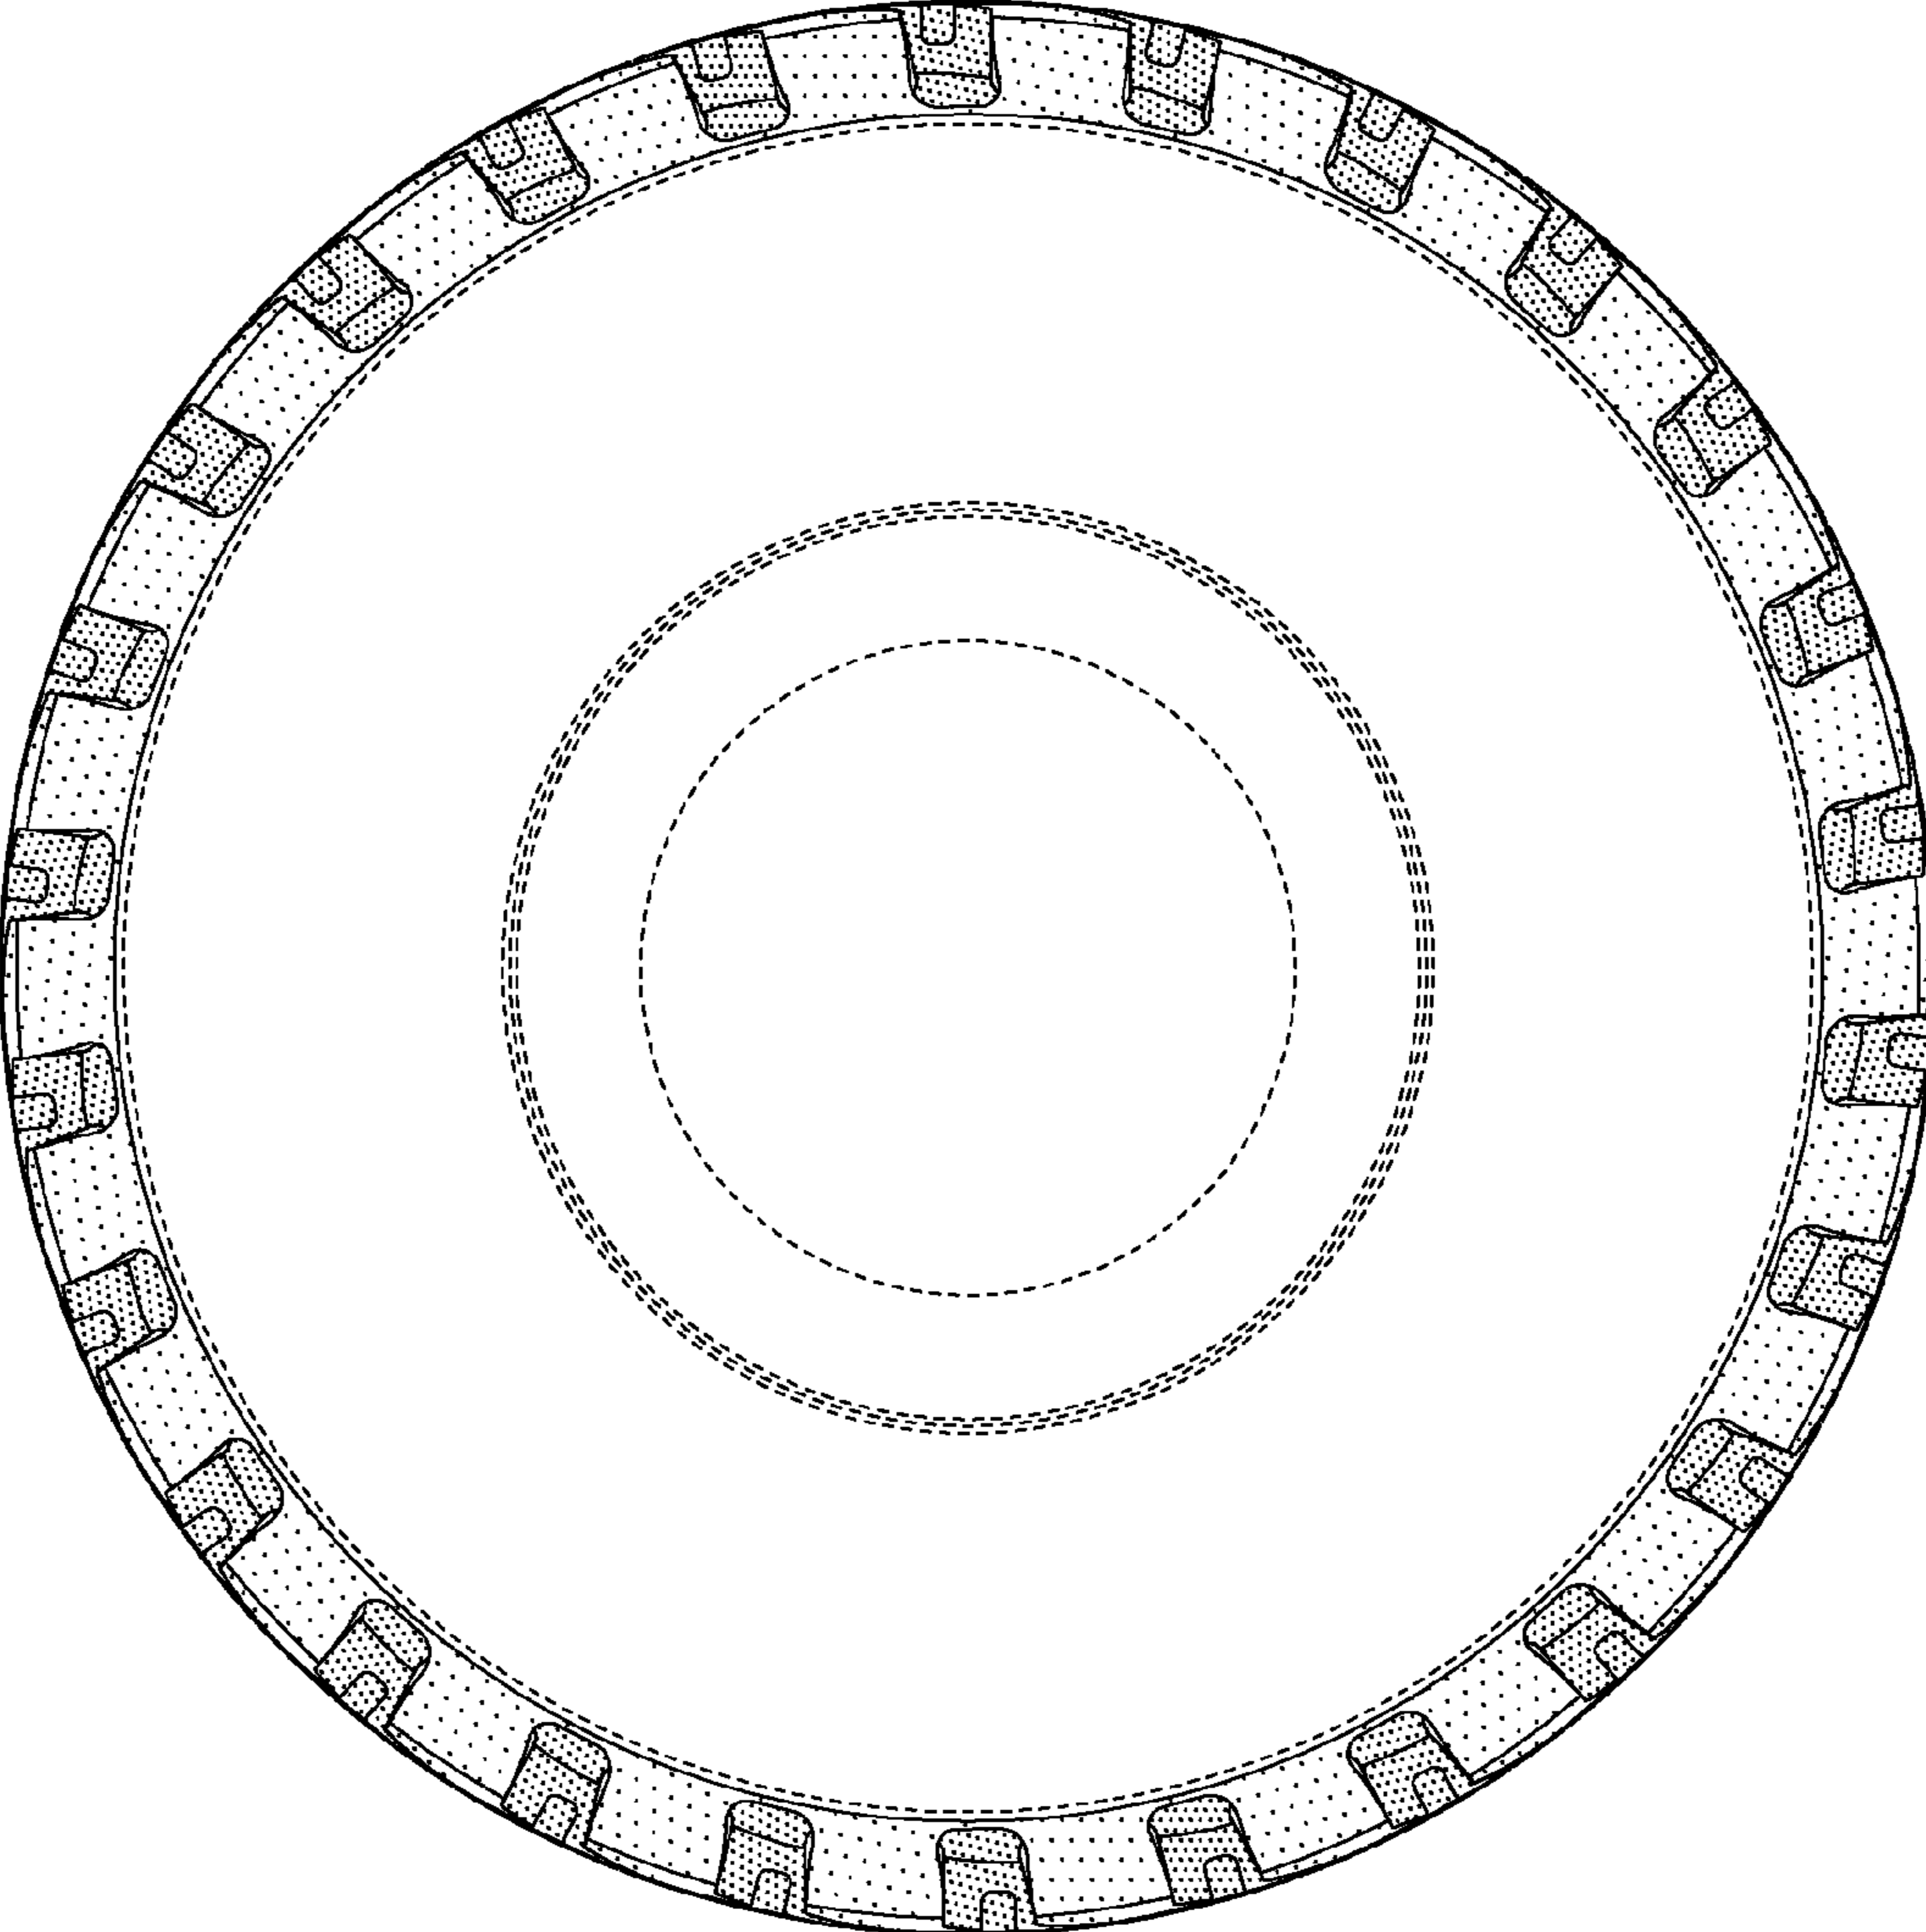

FIG. 3
