(57) **CLAIM**

The ornamental design for a backsplash shield for an irrigation device, as shown and described.

DESCRIPTION

FIG. 1 is a front side elevation view of a backsplash shield for an irrigation device. The back side elevation view is a mirror image thereof.

FIG. 2 is an exploded right side elevation view of the backsplash shield assembly for an irrigation device, including a backsplash shield and a gasket. The left side elevation view is a mirror image thereof.

FIG. 3 is a bottom plan view of the backsplash shield for an irrigation device.

FIG. 4 is top plan view of the backsplash shield for an irrigation device.

FIG. 5 is a cut-away view of the backsplash shield for an irrigation device shown in FIG. 3 taken along line 5—5;

FIG. 6 is a top plan view of a gasket utilized with the backsplash shield of an irrigation device. The bottom plan view is a mirror image thereof.

FIG. 7 is a front elevation view of the gasket utilized with the back splash shield for an irrigation device. The back, left and right side views are mirror images thereof.

FIG. 8 is a front side elevation view of an alternative embodiment of a backsplash shield for an irrigation device. The back side elevation view is a mirror image thereof.

FIG. 9 is a right side elevation view of the alternative embodiment of the backsplash shield for an irrigation device. The left side elevation view is a mirror image thereof.

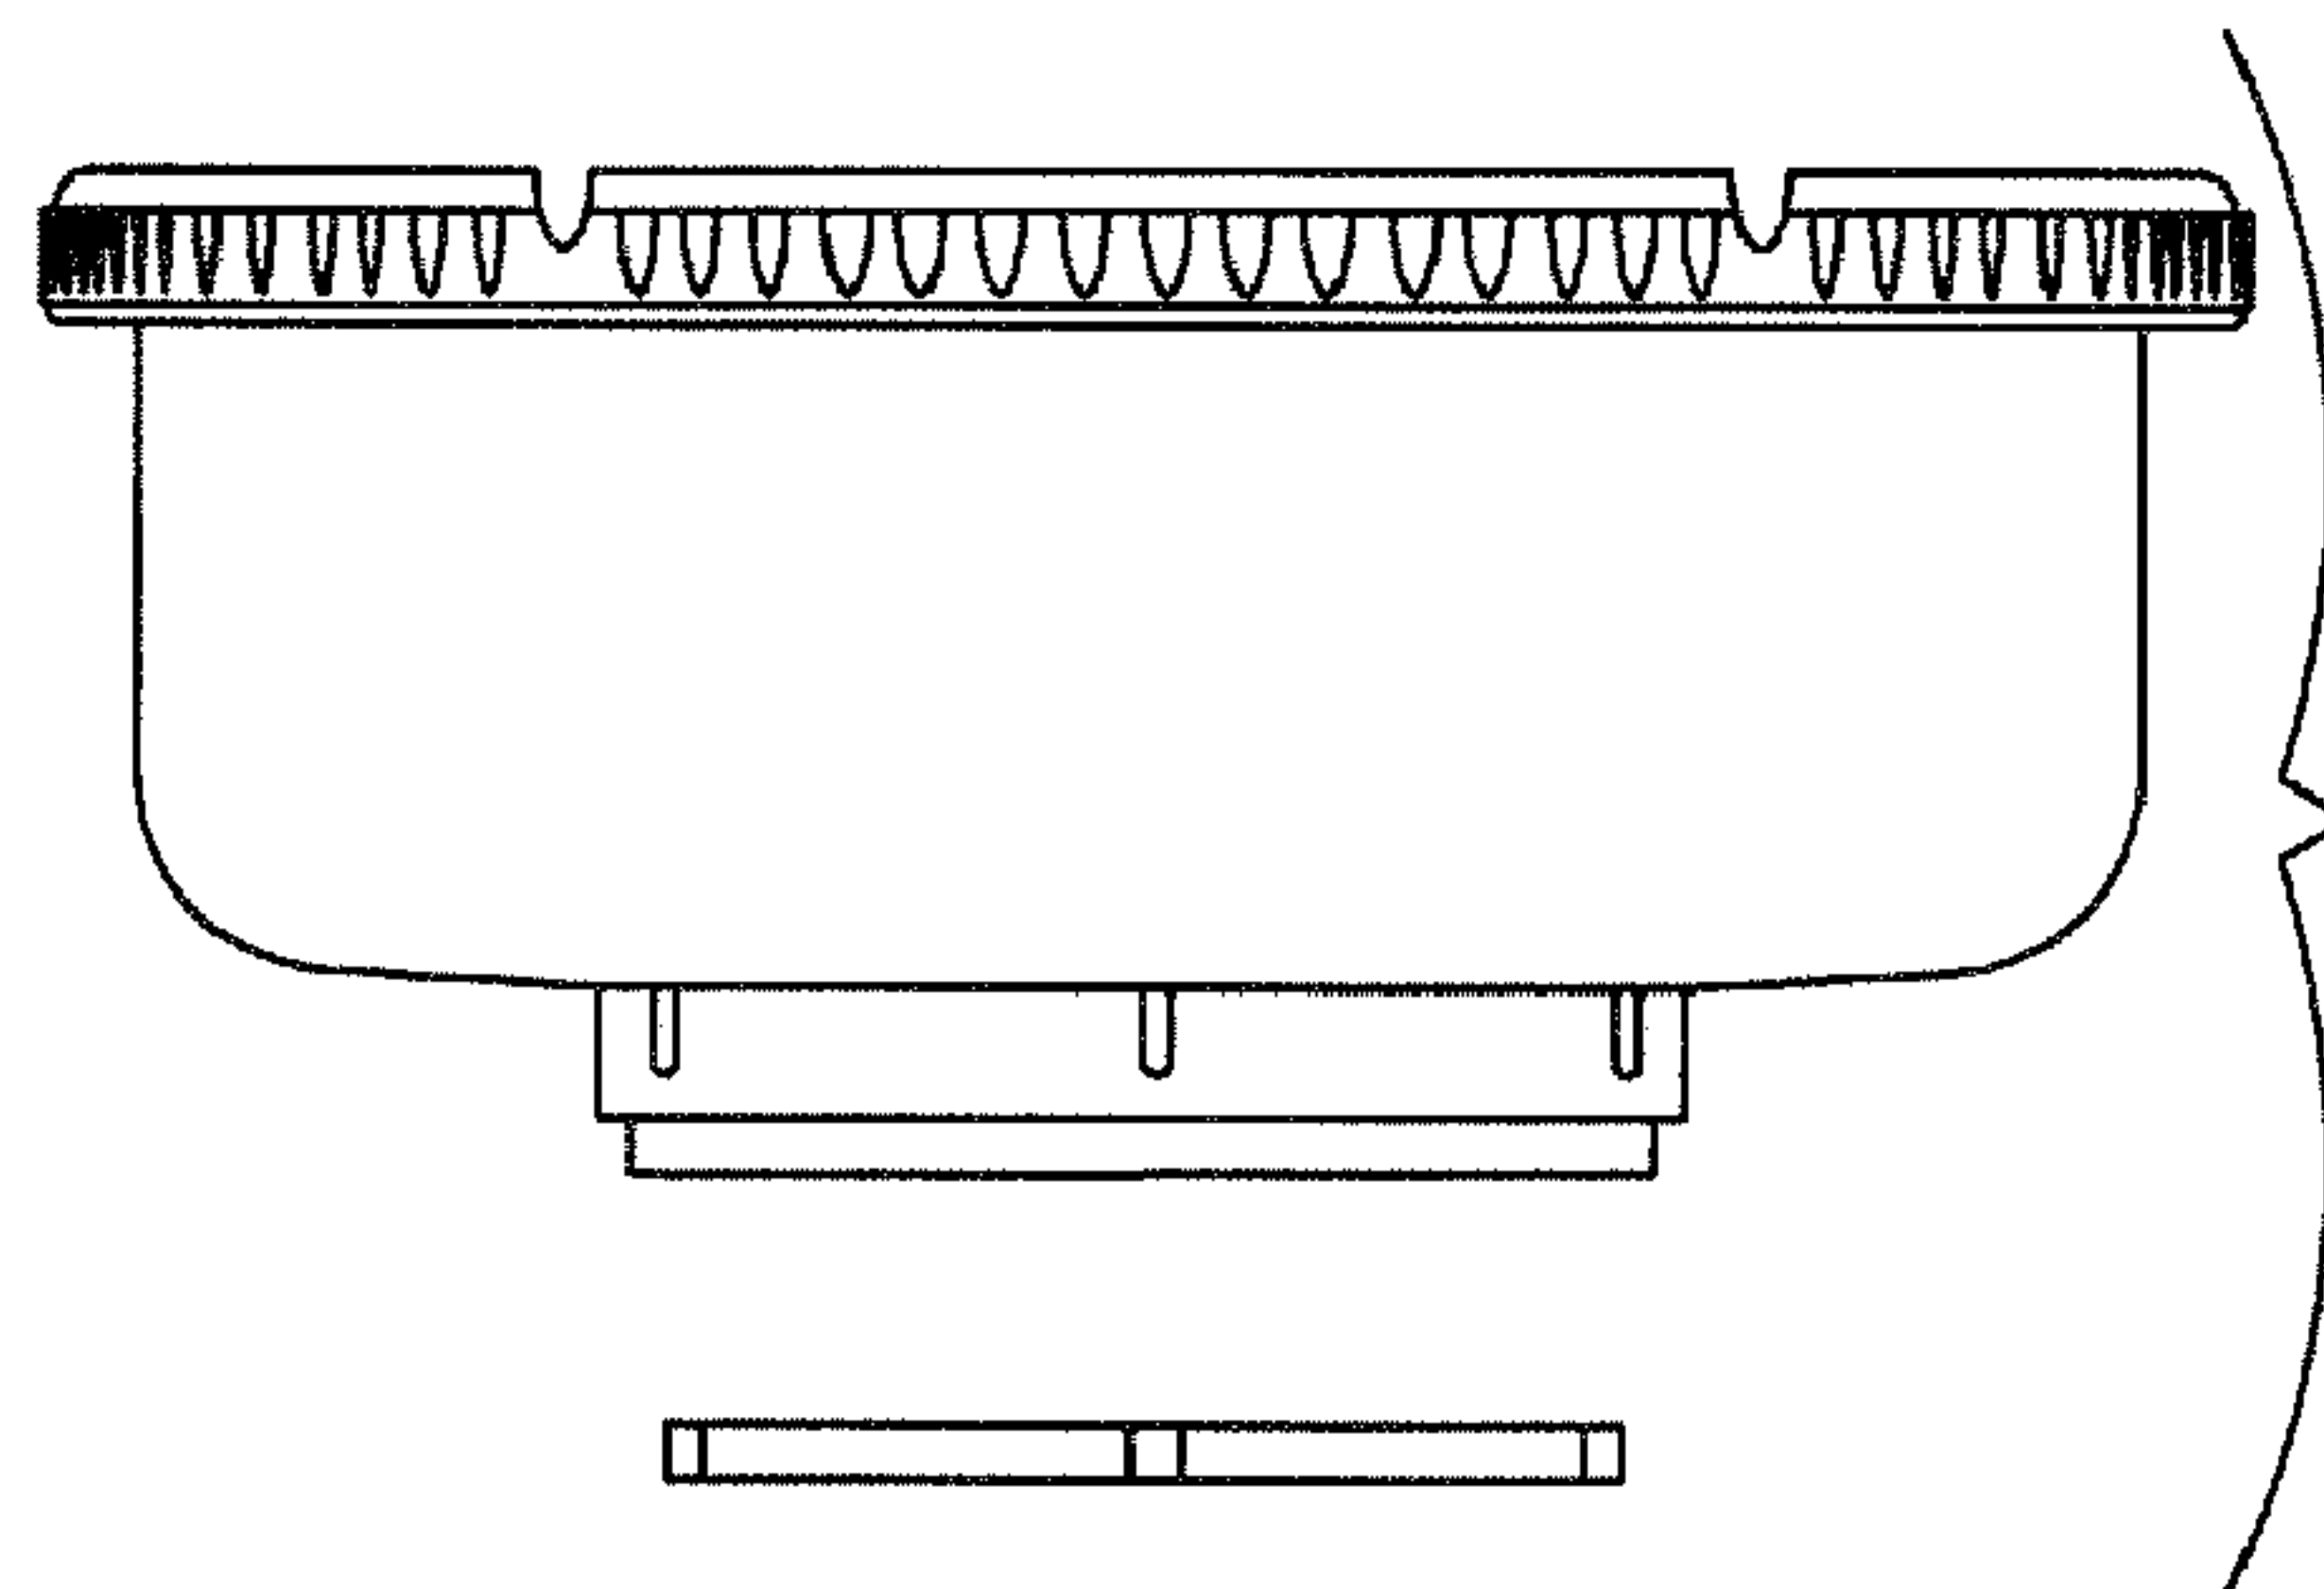

FIG. 10 is a bottom plan view of the alternative embodiment of the backsplash shield for an irrigation device

FIG. 11 is top plan view of the alternative embodiment of the backsplash shield for an irrigation device; and,

FIG. 12 is a cut-away view of the alternative embodiment of the backsplash shield for an irrigation device shown in FIG. 10 taken along line 12—12.

The portions shown in broken lines are included for illustrative purposes only and form no part of the claimed design.
