(57) **CLAIM**

The ornamental design for an absorbent article with printed pattern, as shown and described.

DESCRIPTION

The FIGURE is a top plan view of a printed pattern for an absorbent article showing our new design.

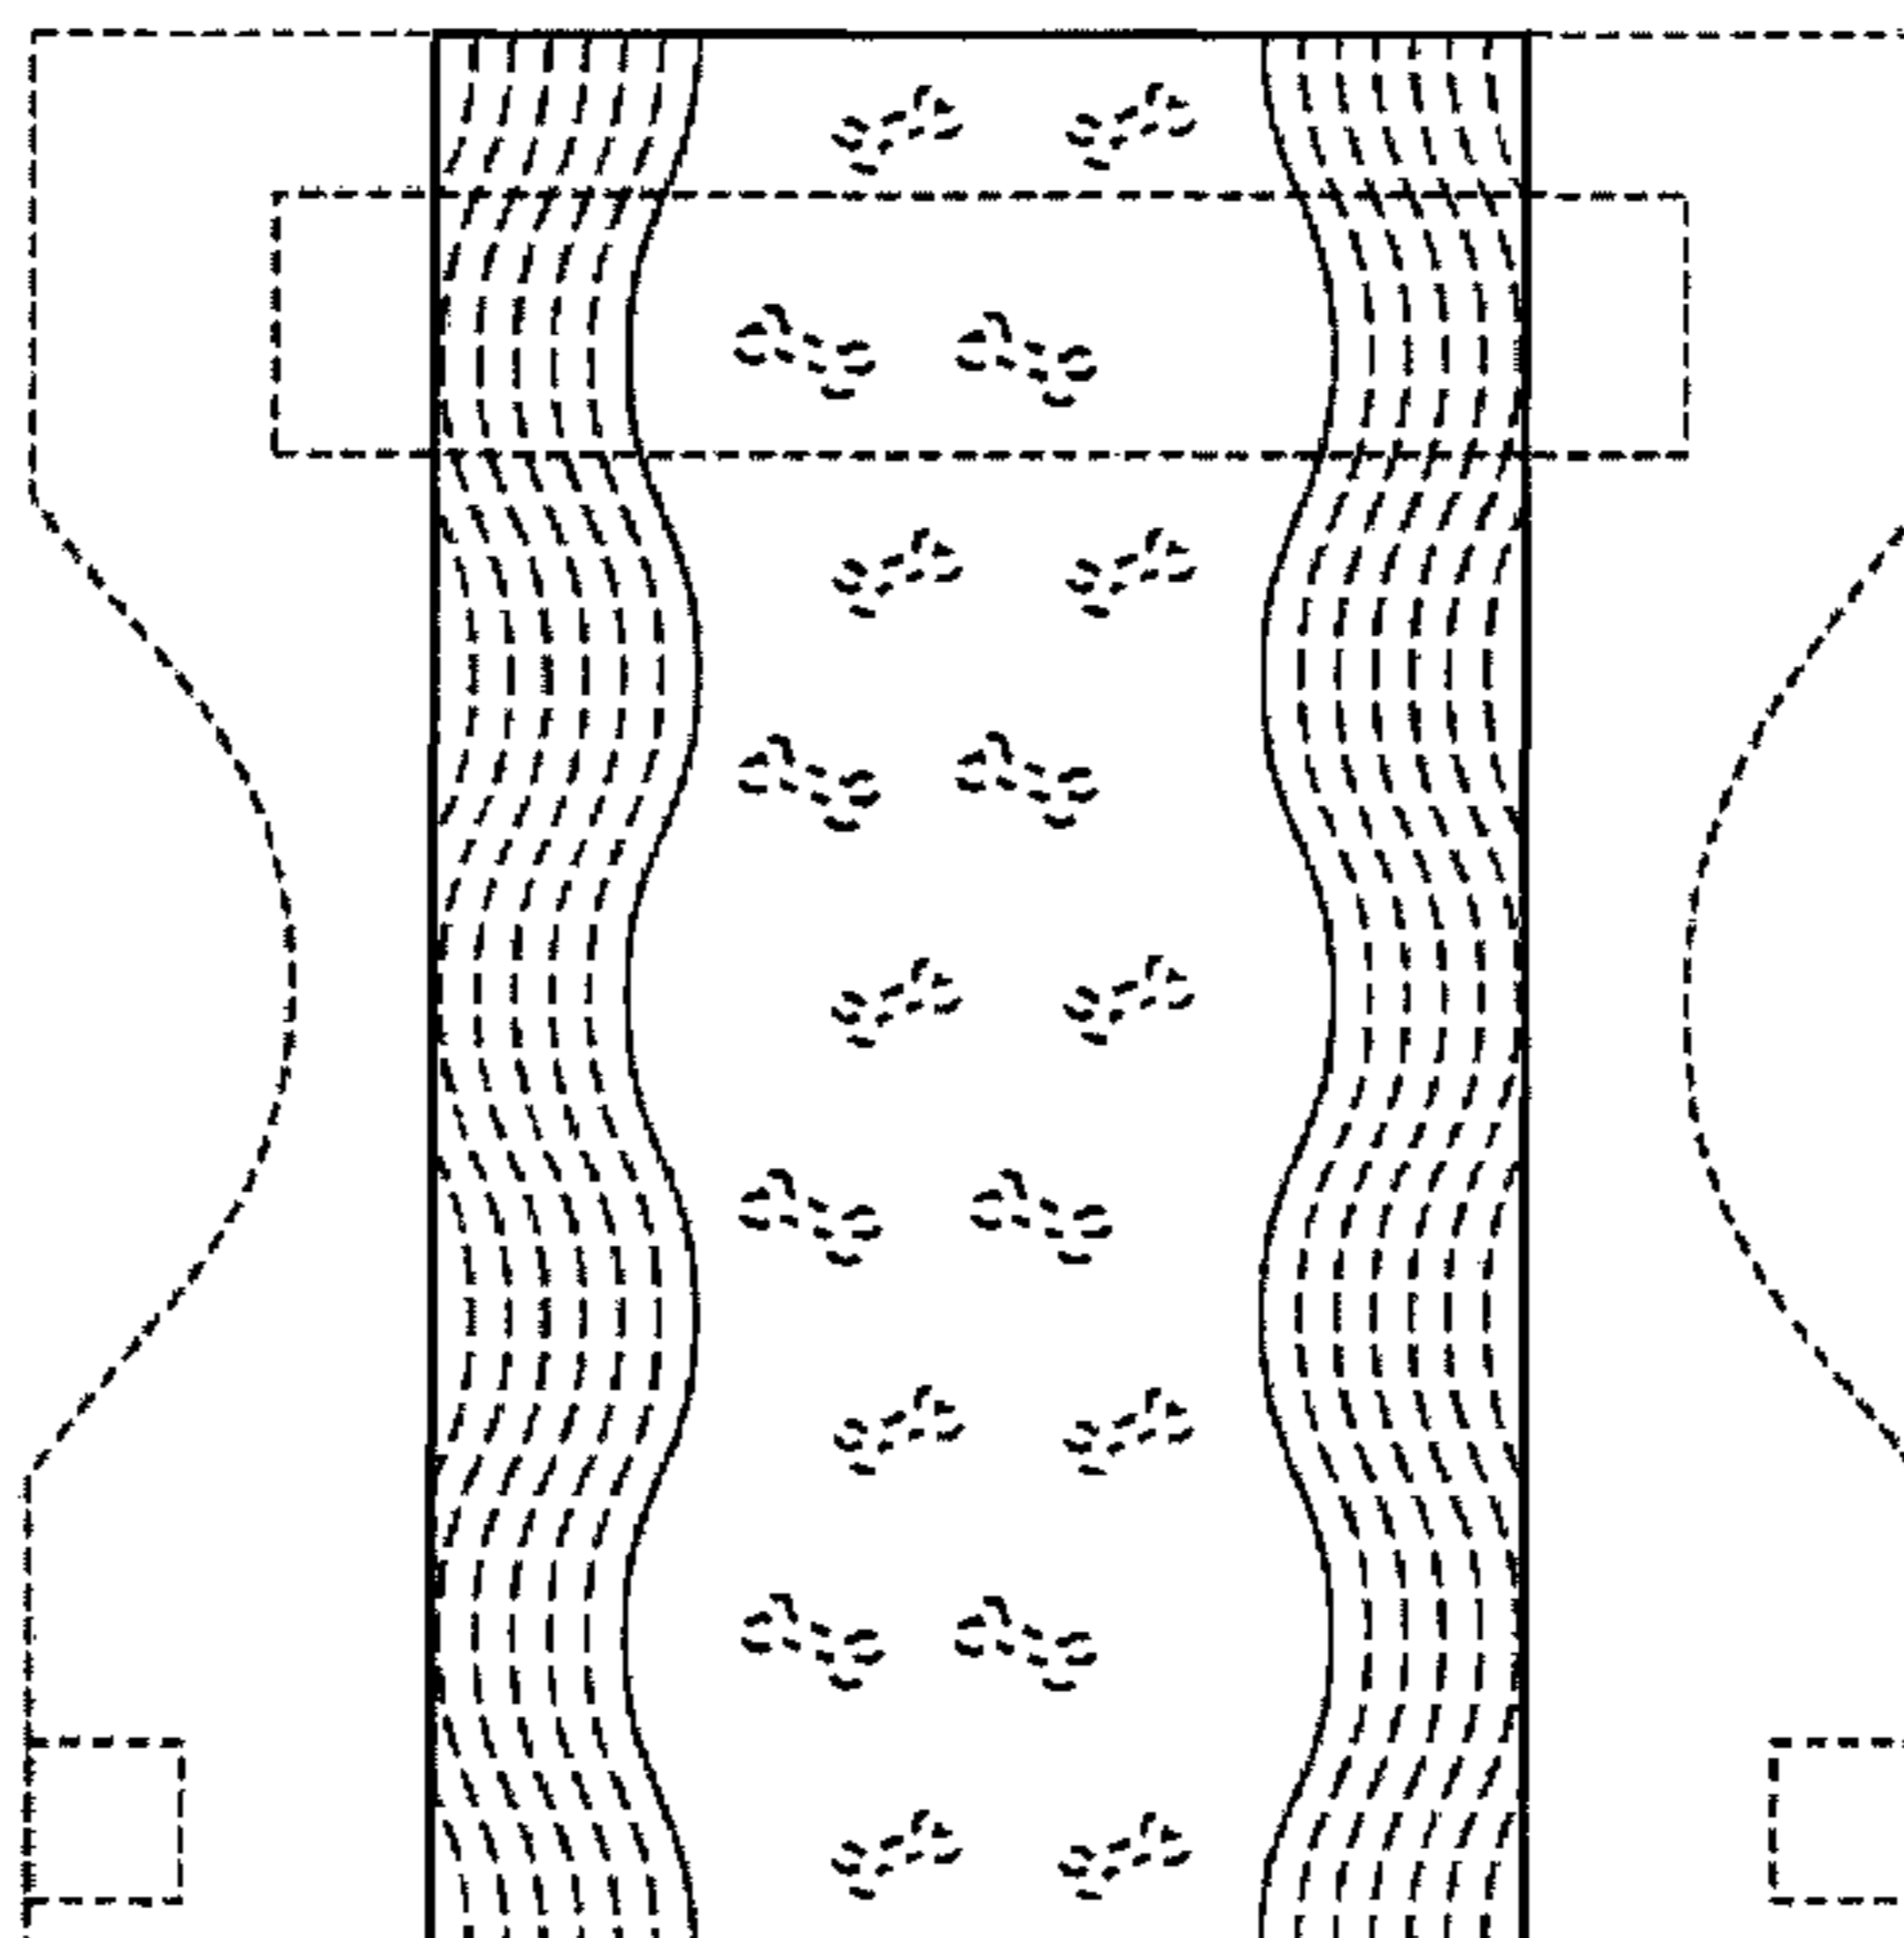

The claimed design is shown in a flattened state, and when in use may be folded or otherwise shaped into an absorbent article. The surface within the solid-line, regardless of the particular material, and the undulating line pattern are part of the claimed design. The broken lines showing portions of an absorbent article in the drawing, whether within or outside of the solid-line, are included for the purpose of illustrating unclaimed structure and form no part of the claimed design.
