(57) **CLAIM**

The ornamental design for a grid adapter for merchandise bins, as shown and described.

**DESCRIPTION**

FIG. 1 is an isometric view of an environmental application of an embodiment of the present invention illustrating a grid

adapter for mounting merchandise bins in combination with a wire grid, in which the grid adapter is translucent, and with the wire grid being shown in dashed lines to indicate that the wire grid forms no part of the claimed invention of this application;

FIG. 2 is a front view of the translucent grid adapter shown in FIG. 1;

FIG. 3 is a back view of the translucent grid adapter shown in FIG. 1;

FIG. 4 is a left-side view of the translucent grid adapter shown in FIG. 1;

FIG. 5 is a right-side view of the translucent grid adapter shown in FIG. 1;

FIG. 6 is a top view of the translucent grid adapter shown in FIG. 1;

FIG. 7 is a bottom view of the translucent grid adapter shown in FIG. 1;

FIG. 8 is an isometric view of an environmental application of an embodiment of the present invention illustrating a grid adapter for mounting merchandise bins in combination with a wire grid, in which the grid adapter is opaque, and with the wire grid being shown in dashed lines to indicate that the wire grid forms no part of the claimed invention of this application;

FIG. 9 is a front view of the opaque grid adapter shown in FIG. 8;

FIG. 10 is a back view of the opaque grid adapter shown in FIG. 8;

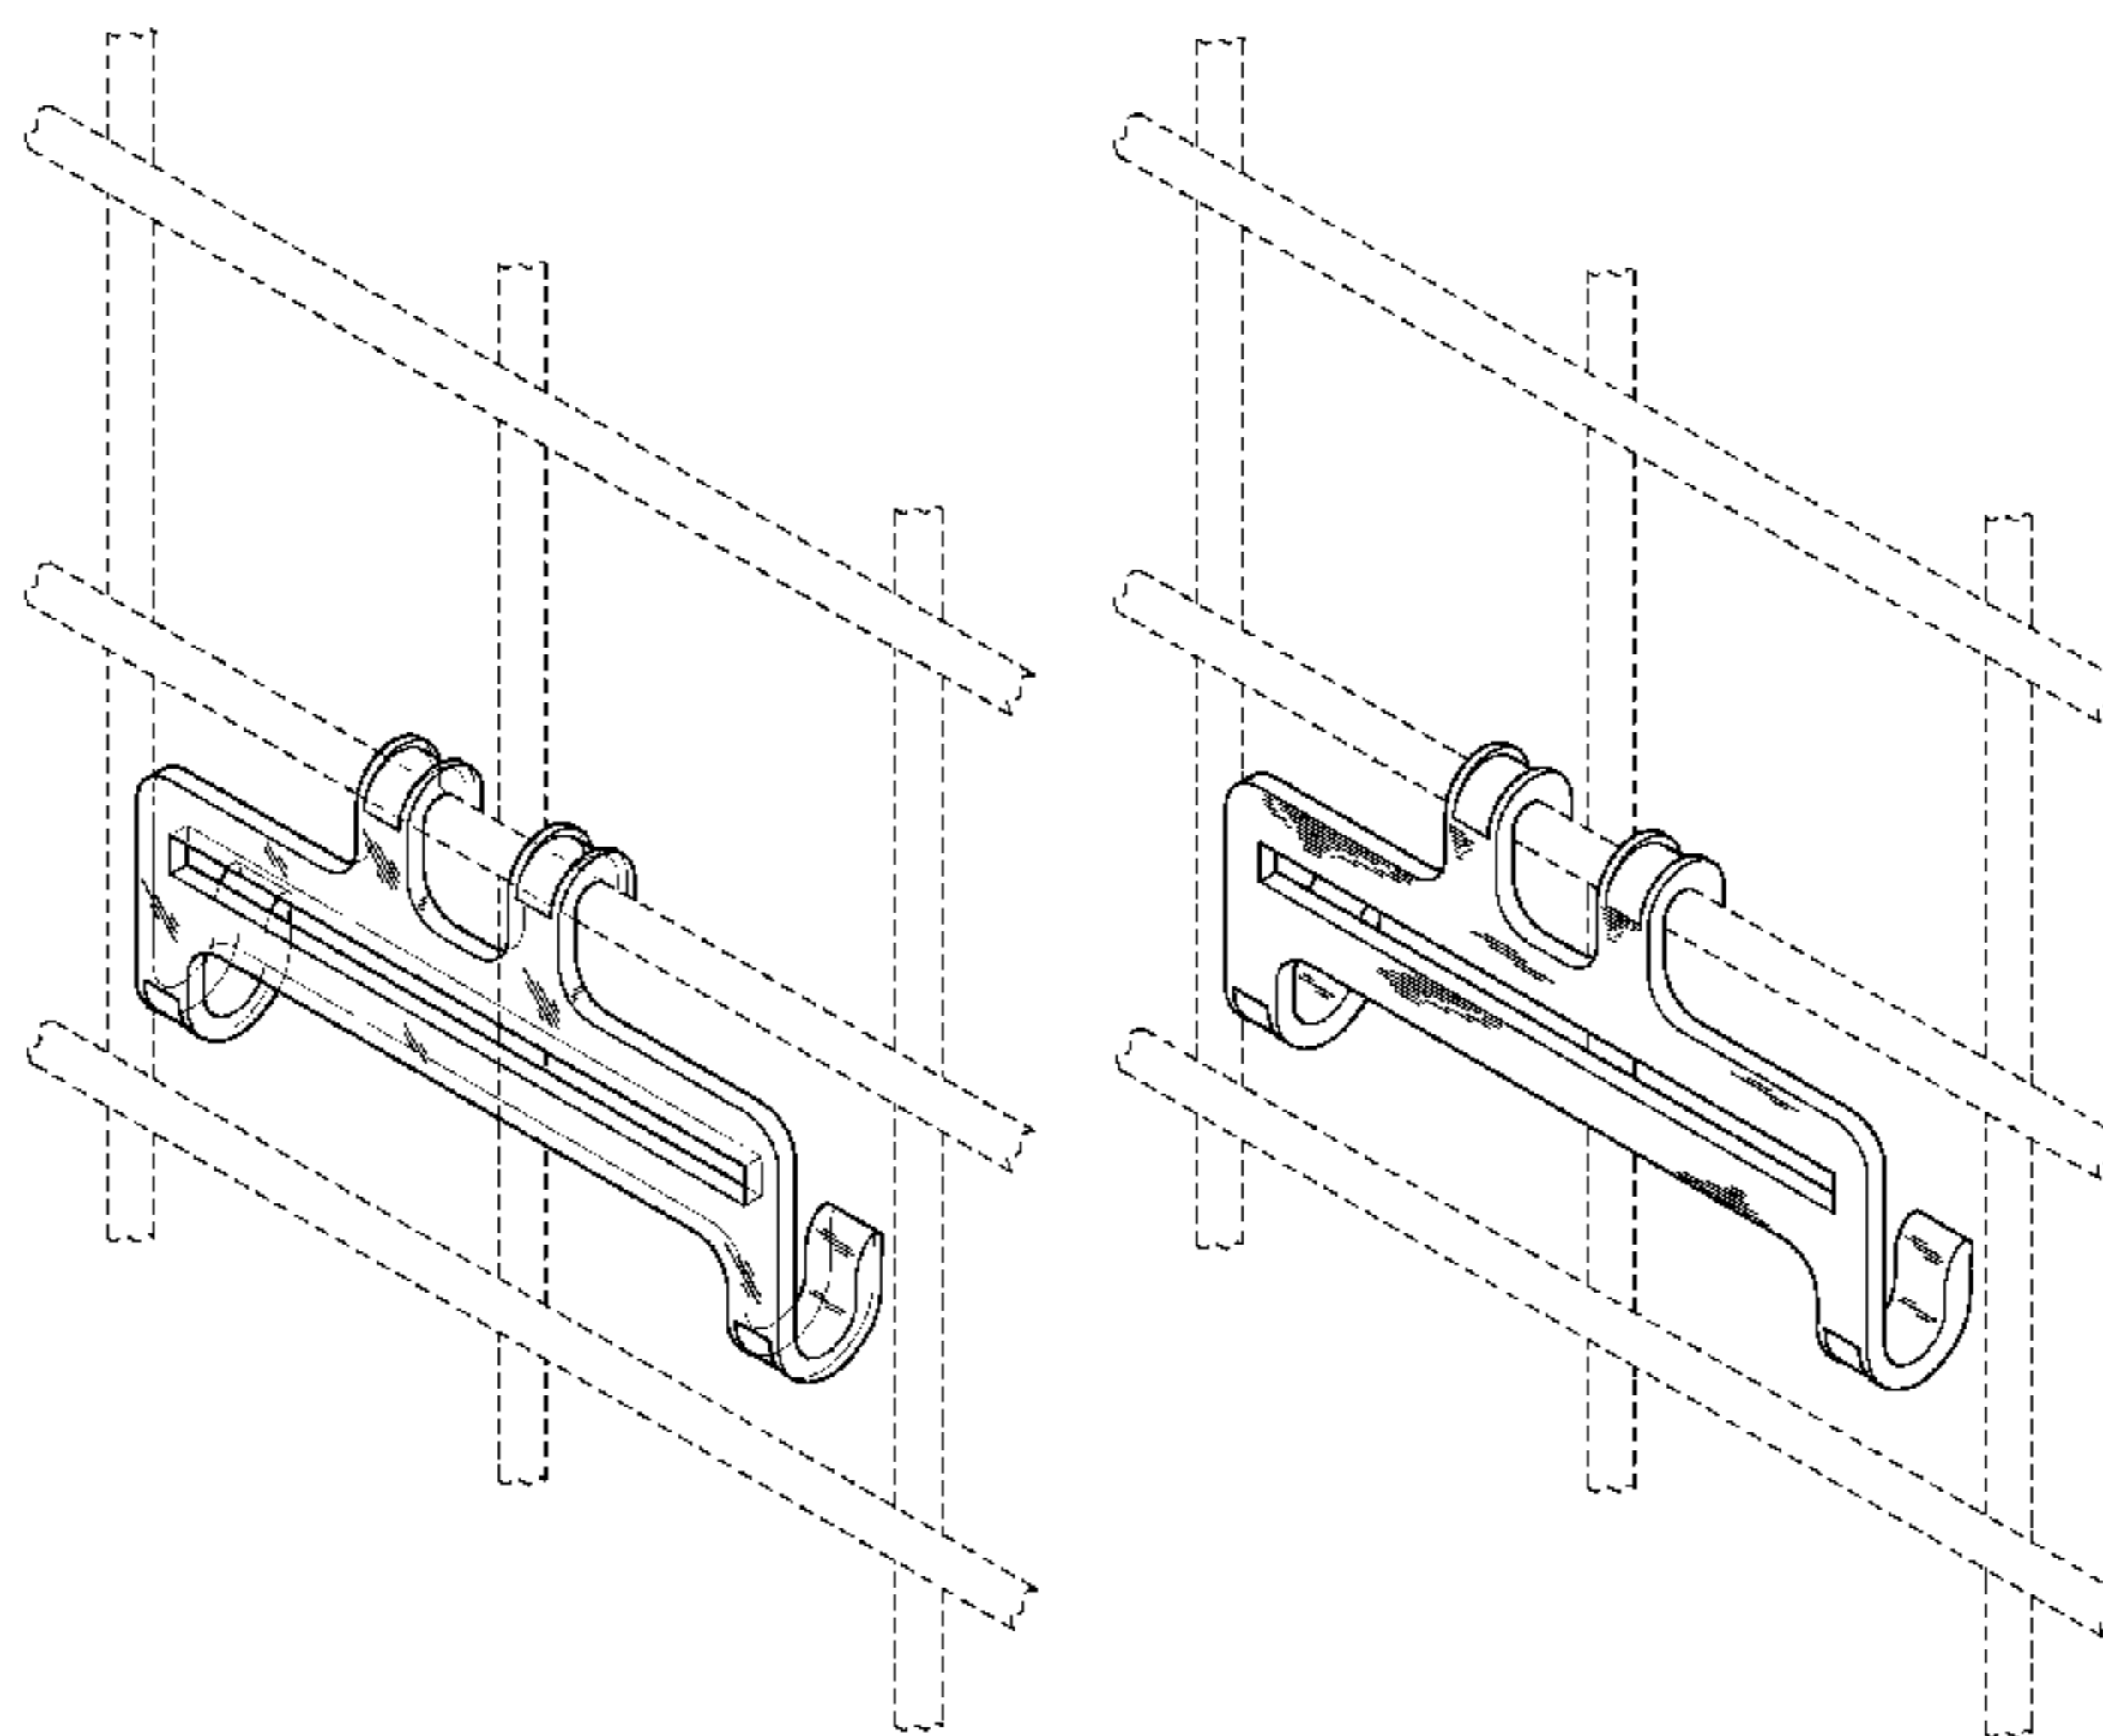

FIG. 11 is a left-side view of the opaque grid adapter shown in FIG. 8;

FIG. 12 is a right-side view of the opaque grid adapter shown in FIG. 8;

FIG. 13 is a top view of the opaque grid adapter shown in FIG. 8; and,

FIG. 14 is a bottom view of the opaque grid adapter shown in FIG. 8.
