(57) **CLAIM**

The ornamental design for a tip for demolition shear, as shown and described.

DESCRIPTION

FIG. 1 is an exploded left rear perspective view of a tip for demolition shear of my new design, the replaceable portion being shown separated from the portion on which it is mounted, as are the fastening members;

FIG. 2 is a right front perspective view thereof in the assembled configuration;

FIG. 3 is a left rear perspective thereof in the assembled configuration; and,

FIG. 4 is a right partial cross-sectional view taken along line 4—4 of FIG. 2, showing the front section of the replaceable portion.

The broken line segments of varying length in the figures illustrate the bounds of the claimed design. The elements depicted in broken line segments of equal length depict unclaimed environmental subject matter.
