(57) **CLAIM**

The ornamental design for an air sampler housing, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of an air sampler housing showing our new design;

FIG. **2** is a front elevational view thereof;

FIG. **3** is a right side view thereof, with the left side view being a mirror image;

FIG. **4** is a rear elevation view thereof;

FIG. **5** is a top plan view thereof, with the bottom plan view being a mirror image and

FIG. **6** is a front elevational view thereof with a slide portion moved from a lower position to an upper position.

FIG. **7** is a perspective view of the air sampler housing shown in FIG. **1** shown with environment in condition of use;

FIG. **8** is a right side view thereof;

FIG. **9** is a top plan view thereof

FIG. **10** is a perspective view of a second embodiment of the invention of FIG. **1** with an alternative hole pattern, and also shown with environment in condition of use; and,

FIG. **11** is a front elevation view thereof.

The broken lines are included for the purpose of illustrating portions of the air sampler housing and environment that forms no part of the claimed design.
