(57) **CLAIM**

The ornamental design for a torque wrench, substantially as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a torque wrench showing my new design, in which a torque-applying arm portion is visible.

FIG. 2 is a back view thereof, in which a handle portion of the torque wrench is visible.

FIG. 3 is a top, left side isometric view thereof, the torque-applying arm portion of the torque wrench having a first length.

FIG. 4 is a right side view thereof.

FIG. 5 is a left side view thereof.

FIG. 6 is a top view thereof; and,

FIG. 7 is a bottom view thereof.

The broken lines shown on the torque wrench are directed to features not a part of the claimed design.
