(57) CLAIM

(45) **Date of Patent:**

The ornamental design for a hand held multiple position magnifier camera, as shown and described.

DESCRIPTION

- FIG. 1 is a front elevational view of a hand held multiple position magnifier camera of the present invention;
- FIG. 2 is a rear elevational view of the hand held magnifier camera of the present invention;
- FIG. 3 is a side elevational view of the hand held magnifier camera of the present invention;
- FIG. 4 is a side elevational view (opposite of that shown in FIG. 3) of the hand held multiple position magnifier camera of the present invention;
- FIG. 5 is a top plan view of the hand held magnifier camera of the present invention;
- FIG. 6 is a bottom plan view of the hand held magnifier camera of the present invention;
- FIG. 7 is a front prospective view of the hand held magnifier camera of the present invention;
- FIG. 8 is a rear prospective view of the hand held magnifier camera of the present invention;
- FIG. 9 is a top perspective view of the hand held magnifier camera in its folded orientation;
- FIG. 10 is a bottom perspective view of a hand held magnifier camera in its folded orientation;
- FIG. 11 is a rear perspective view of the hand held magnifier camera in its partially folded orientation; and,
- FIG. 12 is a front perspective view of the hand held magnifier camera in its partially folded orientation.
