(57) **CLAIM**

The ornamental design for a connector for use with vehicle functionality testing device, as shown and described.

DESCRIPTION

FIG. 1 is a right side perspective view of a connector for use with vehicle functionality testing device showing our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a front elevation view thereof;

FIG. 4 is a right side elevation view thereof;

FIG. 5 is a back elevation view thereof;

FIG. 6 is a left side elevation view thereof;

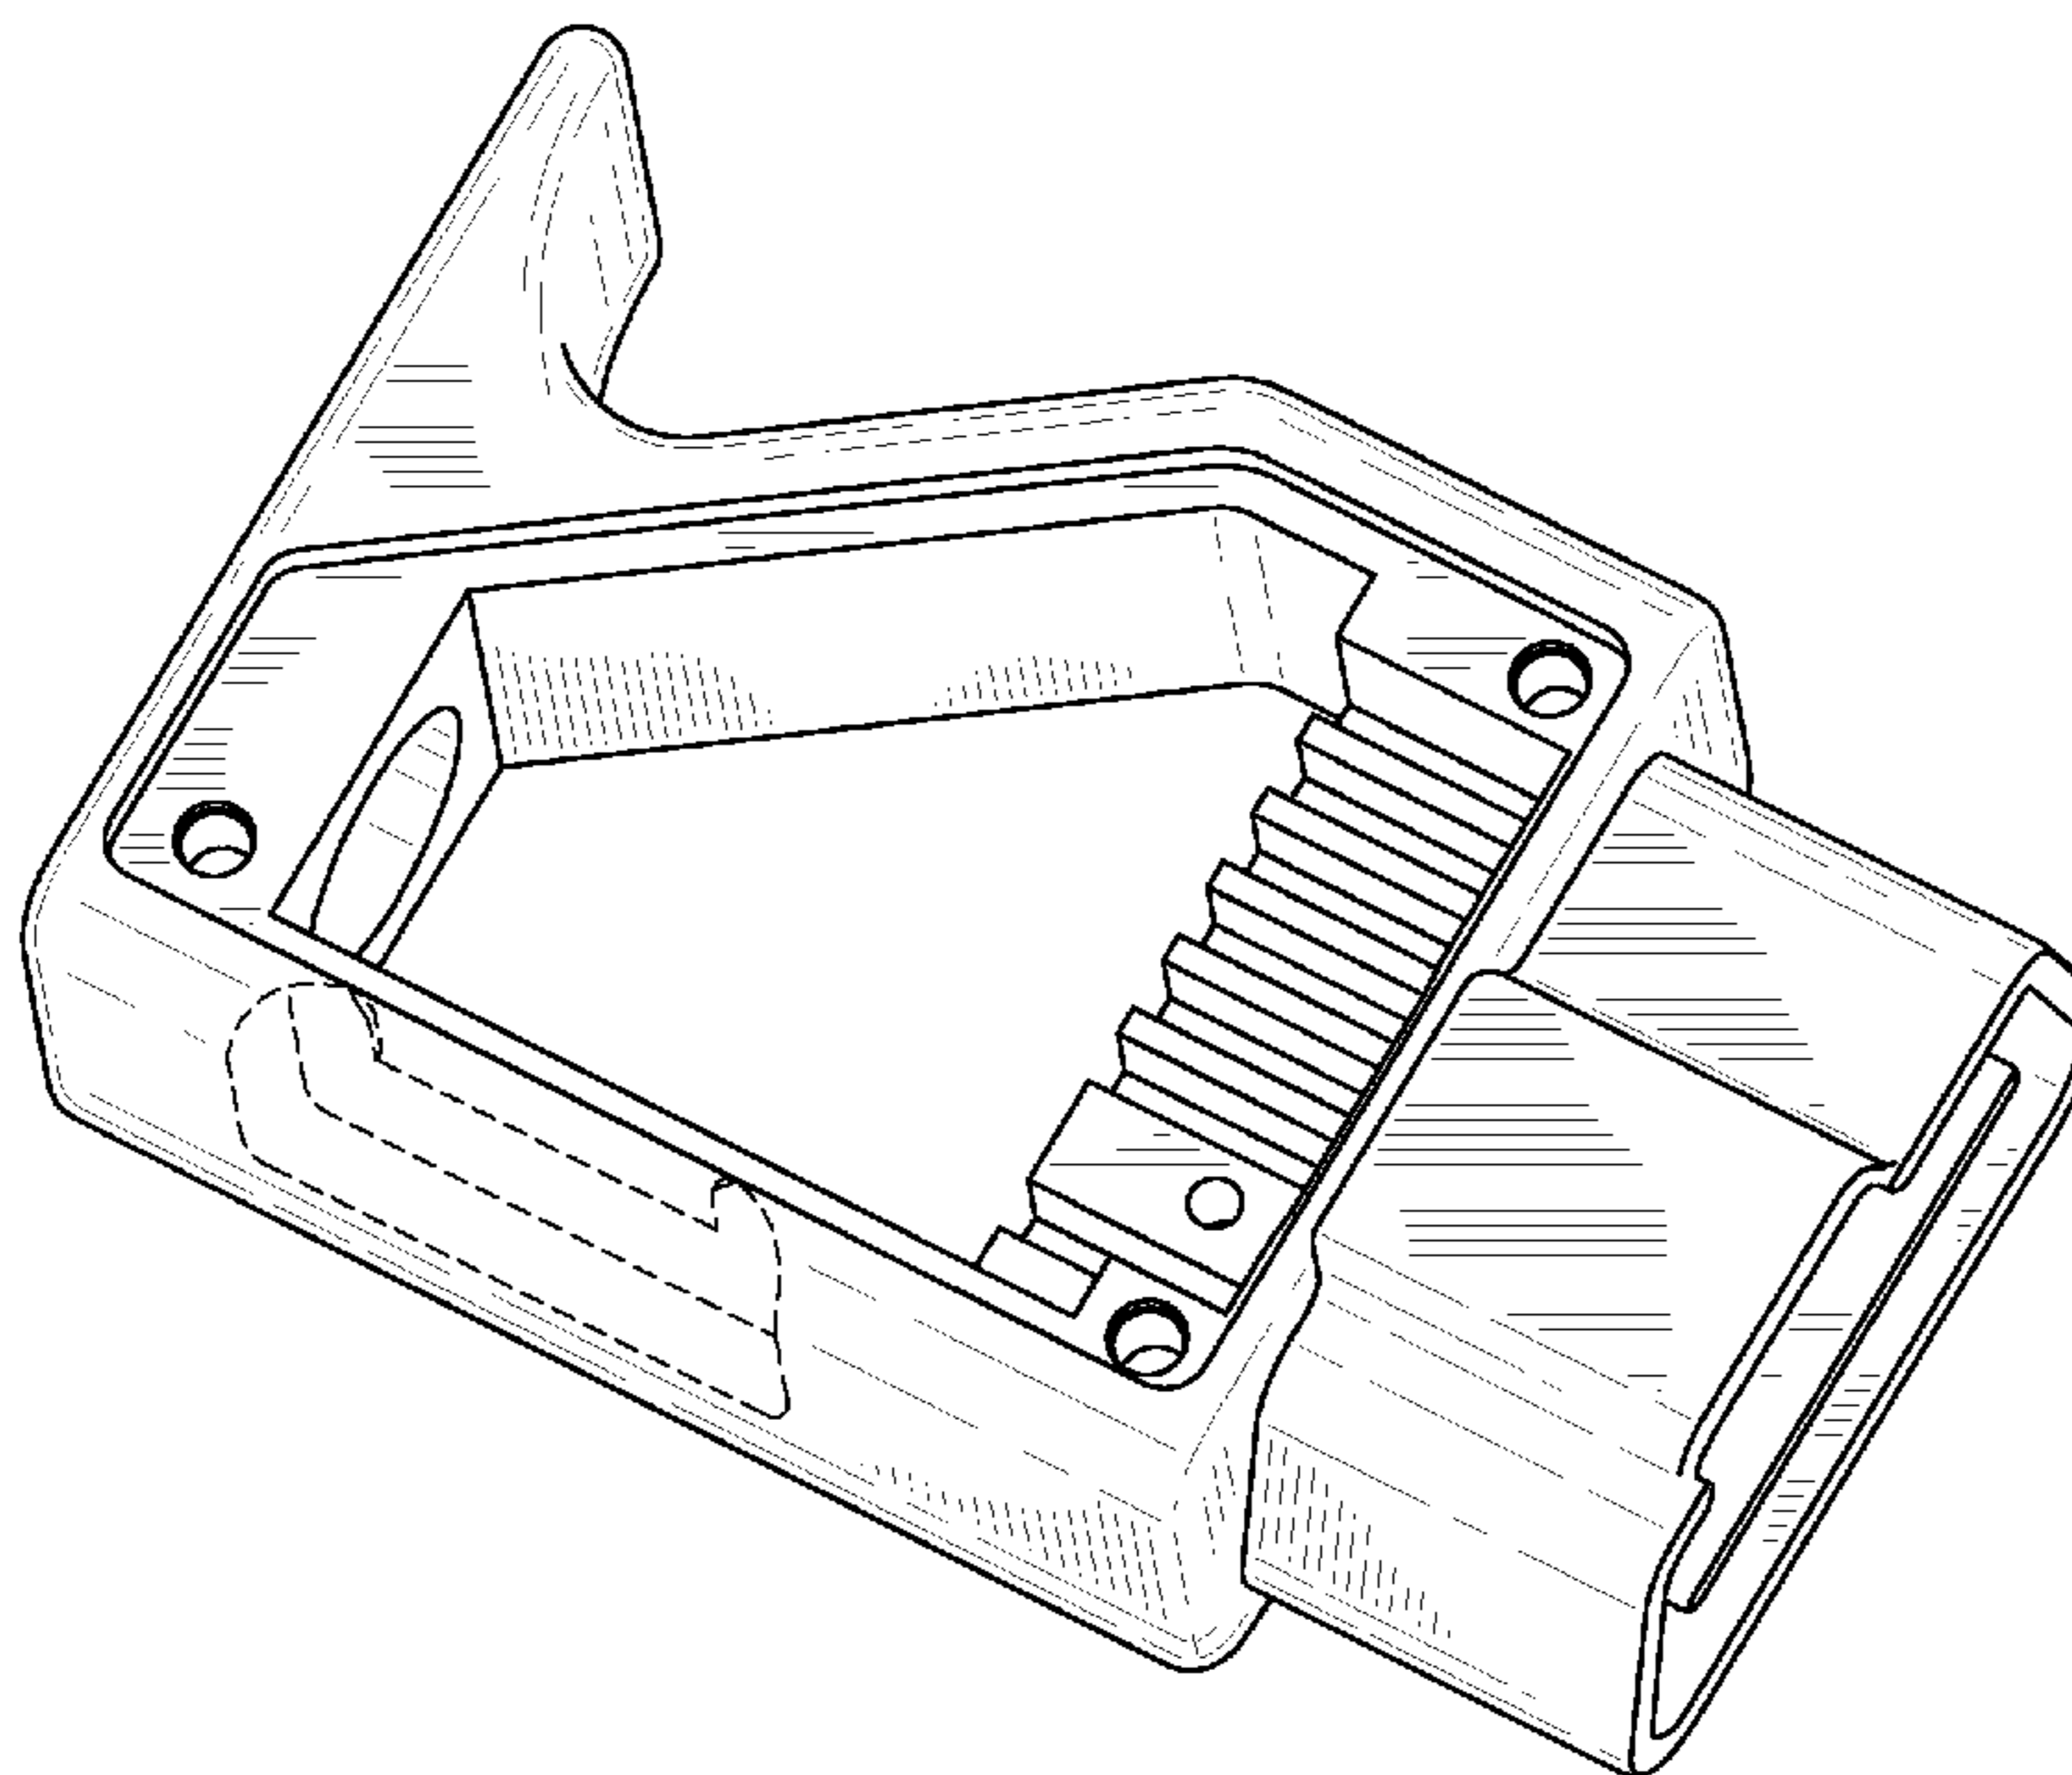

FIG. 7 is a bottom plan view thereof;

FIG. 8 is a right side perspective view thereof, wherein a removable cover is installed on the connector; and,

FIG. 9 is a back elevation view thereof, wherein a removable cover is installed on the connector.

The broken line portion of the figure drawings is included to show unclaimed subject matter only and forms no part of the claimed design.
