DESCRIPTION

FIG. 1 is a perspective view of the corn cutting device of the present invention;
FIG. 2 is a top plan view of the corn cutting device as shown in FIG. 1;
FIG. 3 is a bottom plan view of the corn cutting device as shown in FIG. 1;
FIG. 4 is a side elevational view of the corn cutting device as shown in FIG. 1;
FIG. 5 is a front elevational view of the corn cutting device as shown in FIG. 1; and,
FIG. 6 is a rear elevational view of the corn cutting device as shown in FIG. 1.
