(57) **CLAIM**

The ornamental design for a luer, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view from beyond the proximal end of a luer according to the present invention.

FIG. 2 is an isometric view from beyond the distal end of a luer according to the present invention.

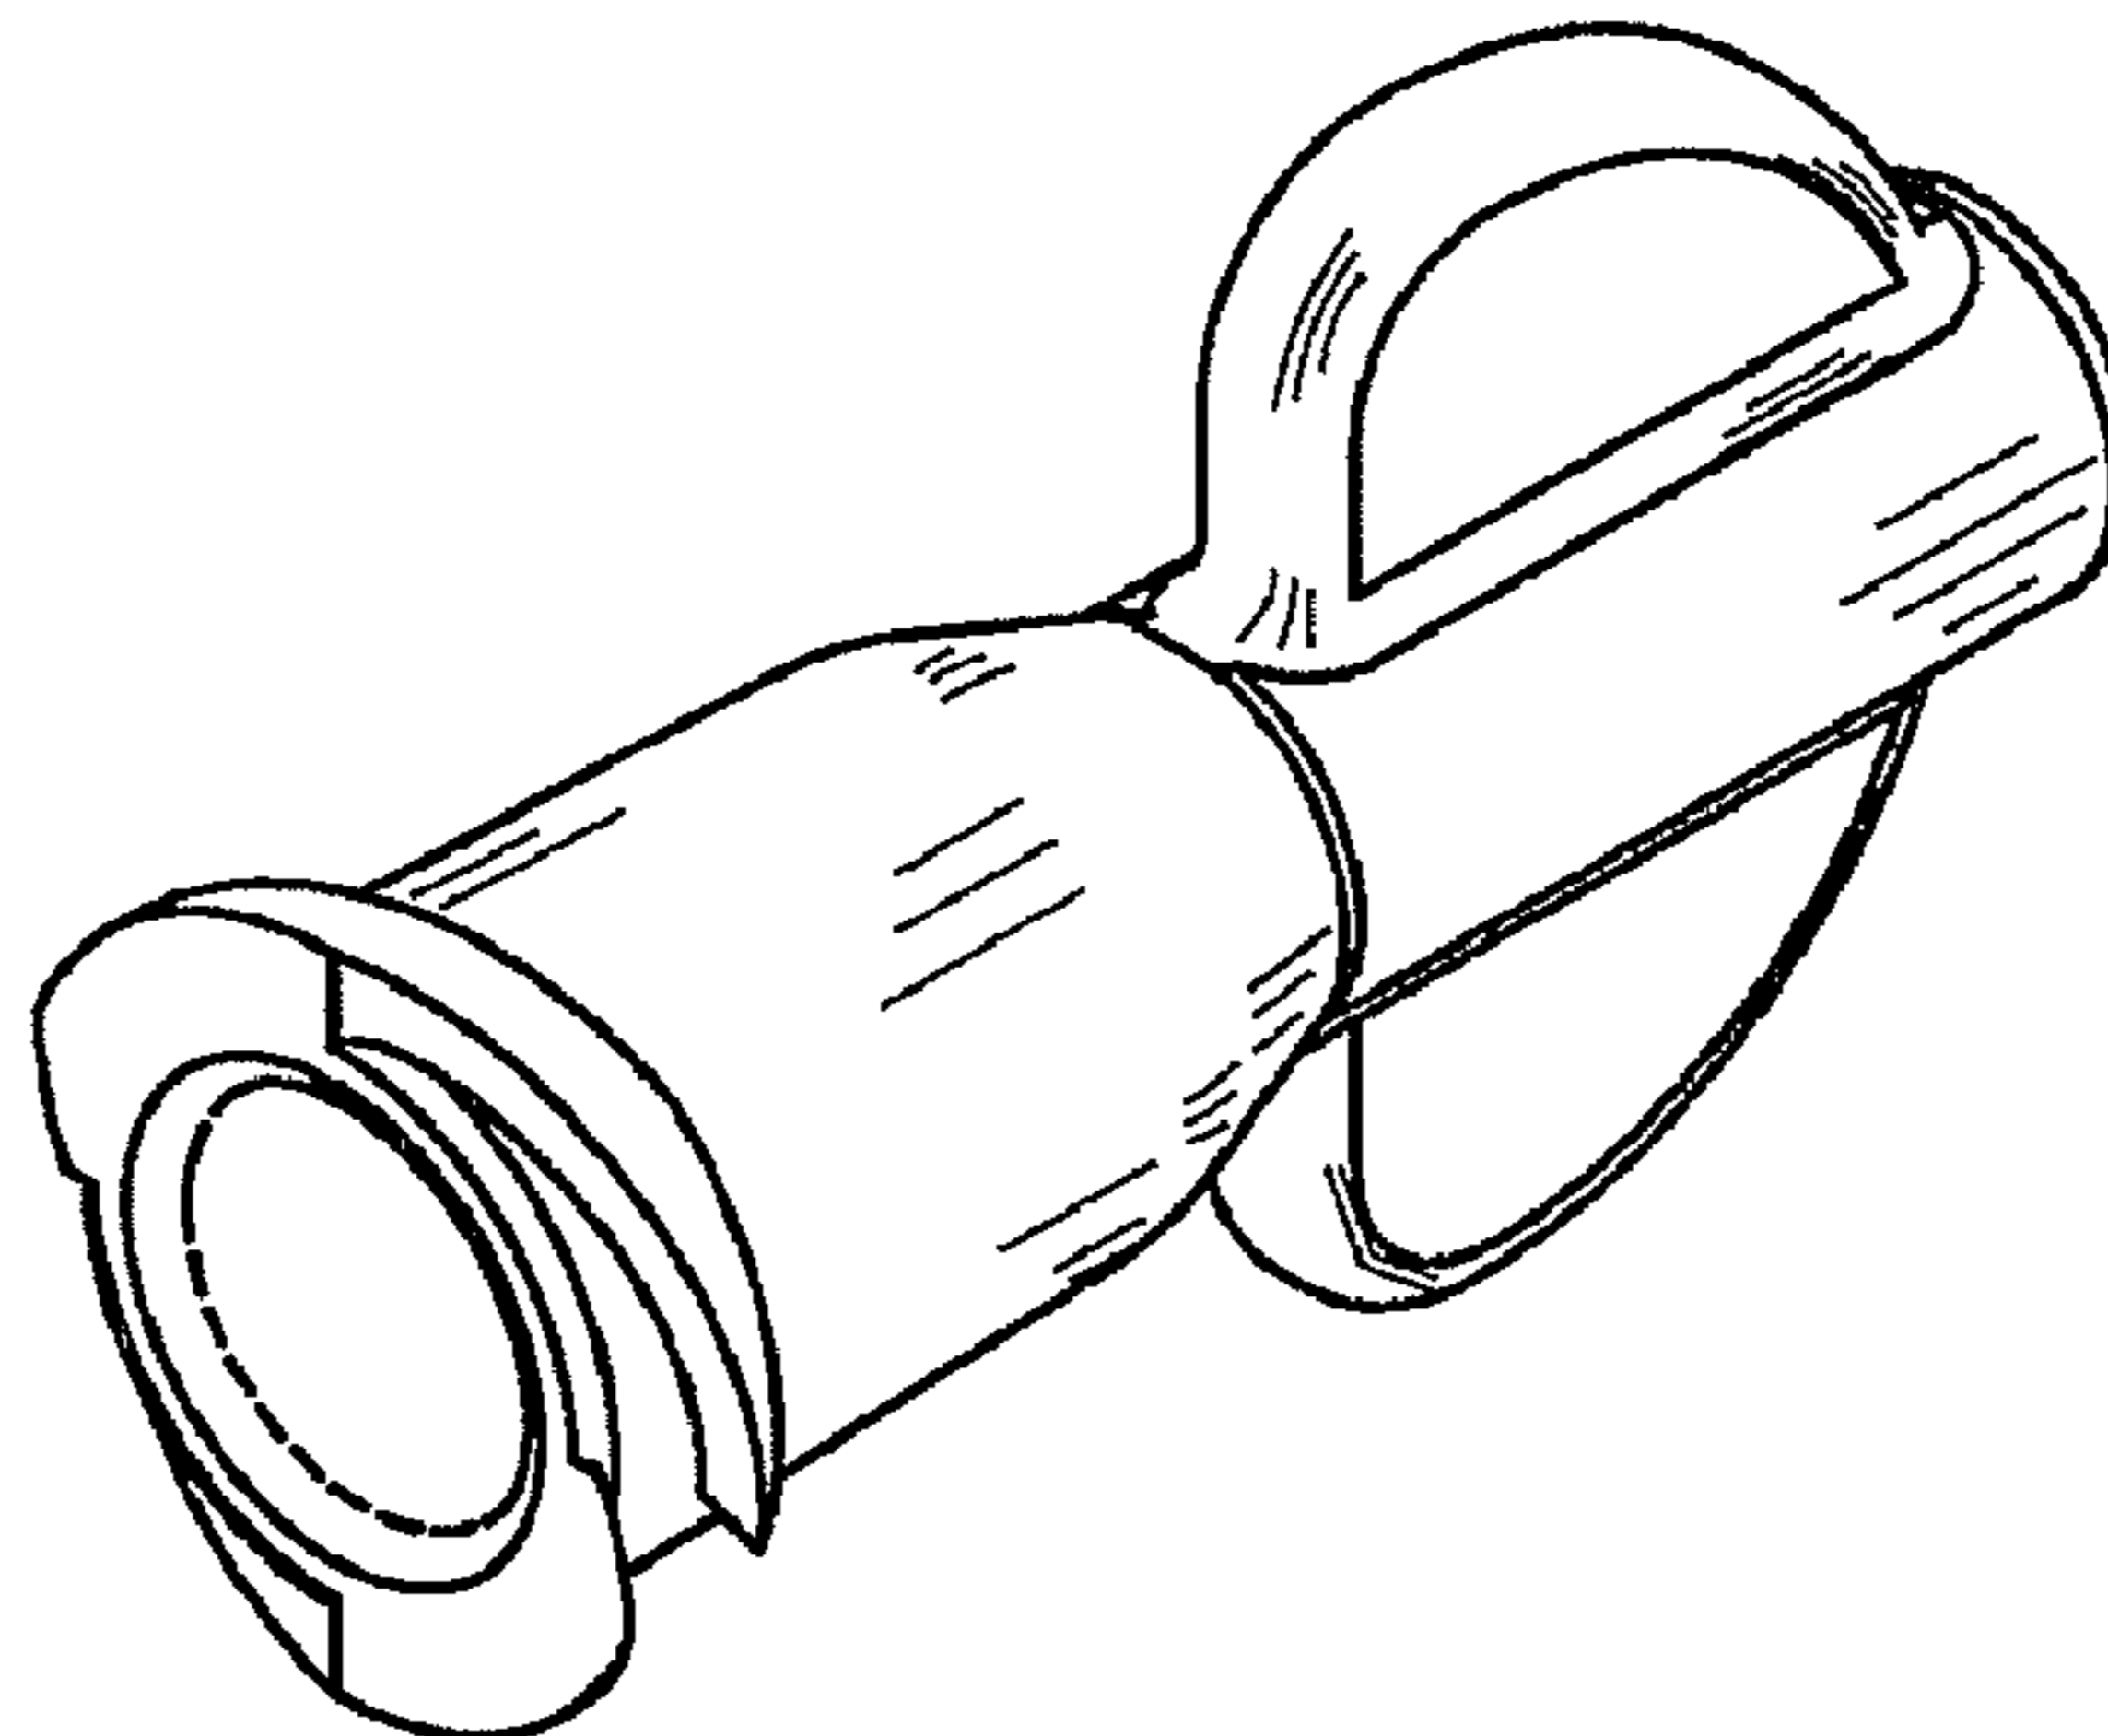

FIG. 3 is a right side view of the luer shown in FIG. 1; the left side view is a mirror image thereof.

FIG. 4 is a top view of the luer shown in FIG. 1; the bottom view is a mirror image thereof.

FIG. 5 is a distal end view of the luer shown in FIG. 1; the details within the center opening are shown in dashed lines and form no part of the present invention; and,

FIG. 6 is a proximal end view of the luer shown in FIG. 1; the details within the center opening are shown in dashed lines and form no part of the present invention.
