(57) **CLAIM**

The ornamental design for a pie cutting device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective exploded view of a pie cutting device showing my new design with both parts (the cutting portion and the lifting portion) taken apart in preparation for cutting and lifting a slice of a pie;

FIG. 2 is a front view thereof showing both parts assembled;

FIG. 3 is a back view thereof;

FIG. 4 is a right-side view of the cutting portion thereof;

FIG. 5 is a right-side view of the lifting portion, where the lifting portion shows the handle portion in both upright and horizontal positions thereof;

FIG. 6 is a bottom view of the lifting portion thereof;

FIG. 7 is a front view of the lifting portion thereof;

FIG. 8 is a bottom view of the cutting portion thereof;

FIG. 9 is a top view of the cutting portion thereof; and,

FIG. 10 is a left-side view of the cutting portion thereof.

The dashed lines are for illustration purposes only and are not claimed as part of this invention.
