(57) **CLAIM**

The ornamental design for a video graphical user interface for television receiver, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a video graphical user interface for television receiver; and,

FIG. 2 is a front view of a second image thereof.

The subject matter in this patent application includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.

The broken line showing of a television receiver is included for the purpose of illustrating environment and forms no part of the claimed design.

1 Claim, 2 Drawing Sheets

FIG. 1

FIG. 2
