(57) **CLAIM**

We claim the ornamental design for a repeating and patterned panel for a sanitary paper product, as shown and described.

DESCRIPTION

The sole FIGURE is a top plan view of a repeating and patterned panel for a sanitary paper product, showing our new design. The broken lines in the drawing depict the boundaries of two panels, which alternate and repeat along the length of the sanitary paper product. The broken lines upon the surface of the design form part of the claimed design by delineating tear lines between the discrete panels. The broken lines at the edges of the design define the boundaries, and form no part, of the claimed design.
