(57) **CLAIM**

The ornamental design for a “barrier strap pedestal”, as shown in the drawings and described in the accompanying text.

**DESCRIPTION**

FIG. 1 is a front perspective view showing the barrier strap pedestal styled according to the present invention;

FIG. 2 is a front elevation view, showing the barrier strap pedestal of FIG. 1;

FIG. 3 is a rear elevation view, showing the barrier strap pedestal of FIG. 1;

FIG. 4 is a right side elevation view, showing the barrier strap pedestal of FIG. 1;

FIG. 5 is a left side elevation view, showing the barrier strap pedestal of FIG. 1;

FIG. 6 is a top view, showing the barrier strap pedestal of FIG. 1;

FIG. 7 is a bottom view, showing the barrier strap pedestal of FIG. 1;

FIG. 8 is a detailed front perspective view, showing the uppermost portion of the barrier strap pedestal of FIG. 1;

FIG. 9 is a detailed rear perspective view, showing the same portion of the barrier strap pedestal of FIG. 8 but from the opposite side;

FIG. 10 is a detailed front perspective view, showing the uppermost portion of the barrier strap pedestal of FIG. 1 with the top cap raised to reveal the appearance of features which are visible when a barrier strap is attached to the barrier strap pedestal;

FIG. 11 is a detailed rear perspective view, showing the same portion of the barrier strap pedestal as FIG. 10 (with the top cap raised) but from the opposite side;

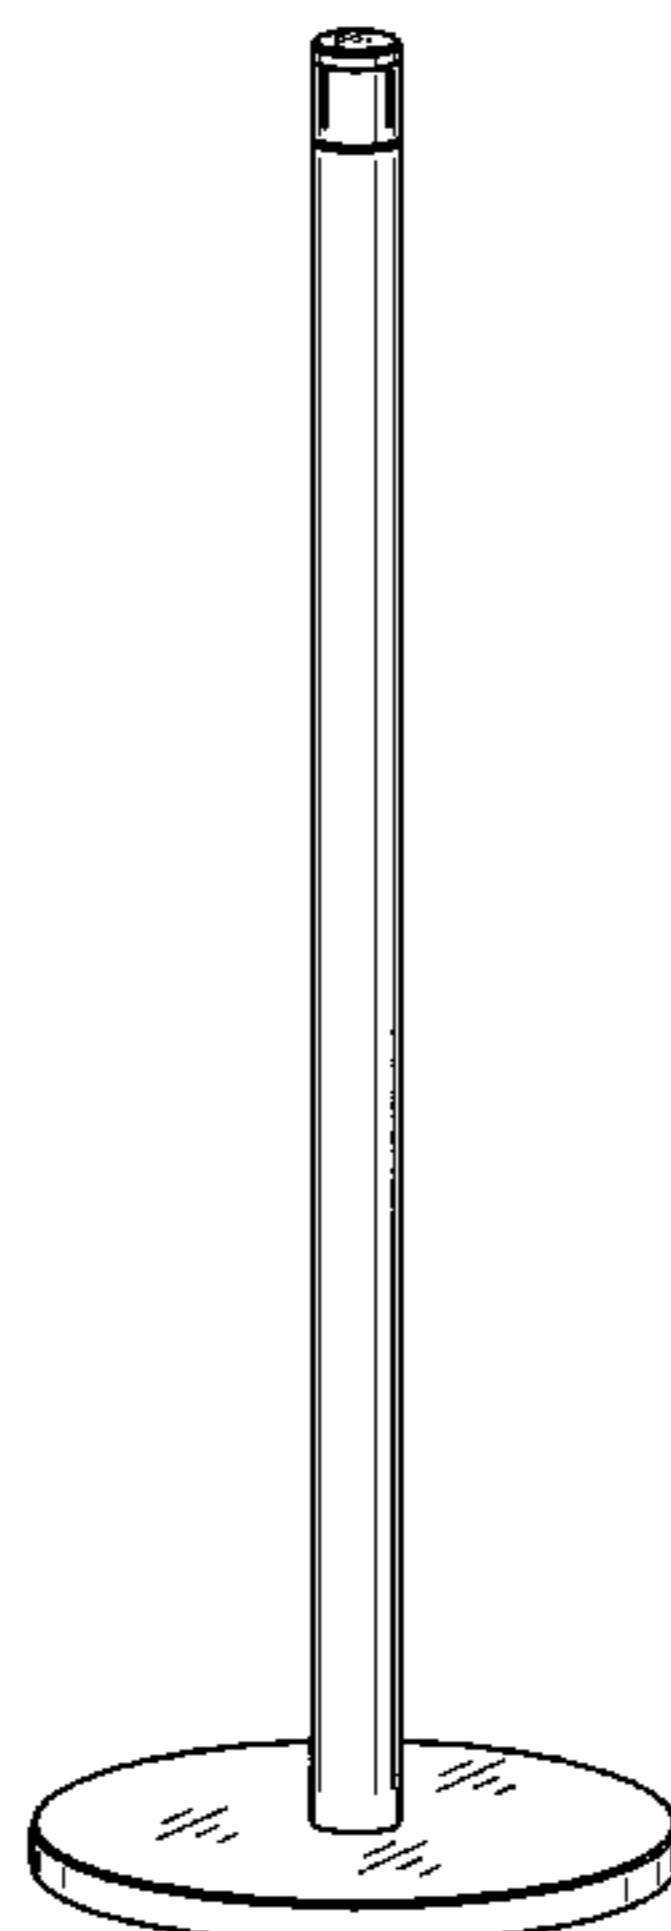

FIG. 12 is a detailed front elevation view, showing the uppermost portion of the barrier strap pedestal with the top cap raised;

FIG. 13 is a detailed rear elevation view, showing the uppermost portion of the barrier strap pedestal with the top cap raised;

FIG. 14 is a detailed right side elevation view, showing the uppermost portion of the barrier strap pedestal with the top cap raised; and,

FIG. 15 is a detailed left side elevation view, showing the uppermost portion of the barrier strap pedestal with the top cap raised.
