(57) **CLAIM**

I claim the ornamental design for a three bladed cutter for brownies and the like, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a first embodiment of my invention that has unserrated blade edges, with the view showing mainly front, top and right end features of the first embodiment;

FIG. 2 is a front view thereof;

FIG. 3 is a rear view thereof;

FIG. 4 is a top view thereof;

FIG. 5 is a bottom view thereof;

FIG. 6 is a right end view thereof, the left end view being a mirror image thereof; and,

FIG. 7 is a perspective view of a second embodiment of my invention that is identical to the first embodiment except that the second embodiment has serrated blade edges, with the view showing mainly front, top and right end features of the second embodiment.

The design includes appearance features of a cutter for brownies and the like that has three equally spaced knife-like blades depending from a horizontally extending crossbar of generally rectangular cross-section that is spaced beneath a horizontally extending handle of rounded, generally ovular shape supported near opposite ends by a pair of uprights of generally rectangular cross-section that project upwardly from the crossbar at locations where two of the blades depend from opposite ends of the crossbar.
