(57) **CLAIM**

We claim the ornamental design for a structural component of clip for holding thin film solar panels, as shown and described.

DESCRIPTION

FIG. 1 is an upper perspective view of a structural component of clip of the present disclosure with broken lines showing portions of the clip and thin film solar panels that form no part of the claimed design;

FIG. 2 is an upper perspective view of the structural component of clip shown in FIG. 1;

FIG. 3 is a lower perspective view of the structural component of clip shown in FIG. 1;

FIG. 4 is a front elevation view of the structural component of clip shown in FIG. 1;

FIG. 5 is a right side elevation view of the structural component of clip shown in FIG. 1, the left side elevation view being a mirror image of the right side elevation view;

FIG. 6 is a top plan view of the structural component of clip shown in FIG. 1; and,

FIG. 7 is a bottom plan view of the structural component of clip shown in FIG. 1.

The broken lines in FIGS. 1 and 5 are included for the purpose of illustrating portions of the clip and thin film solar panels that form no part of the claimed design.

The claim has been shown broken away to indicate an indeterminate length.
