(57) **CLAIM**

I claim the ornamental design for the sleeved display package, as shown and described.

DESCRIPTION

FIG. 1 is an expanded front right perspective view showing the front cover of sleeve in the open position;

FIG. 2 is an expanded left side elevational view showing the front cover of sleeve in the open position;

FIG. 3 is an expanded front elevational view showing the front cover of sleeve in the open position;

FIG. 4 is an expanded right side elevational view showing the front cover of sleeve in the open position;

FIG. 5 is an expanded rear elevational view thereof;

FIG. 6 is an expanded top elevational view showing the front cover of sleeve in the open position;

FIG. 7 is an expanded bottom elevational view showing the front cover of sleeve in the open position;

FIG. 8 is an assembled front right perspective view with front cover of sleeve in open position;

FIG. 9 is an assembled front right perspective view with front cover of sleeve in closed position;

FIG. 10 is an assembled top elevational view with front cover of sleeve in closed position;

FIG. 11 is an assembled left side elevational view with front cover of sleeve in closed position;

FIG. 12 is an assembled front elevational view with front cover of sleeve in closed position;

FIG. 13 is an assembled bottom elevational view with front cover of sleeve in closed position;

FIG. 14 is an assembled rear elevational view;

FIG. 15 is an assembled right side elevational view with front cover of sleeve in closed position;

FIG. 16 is a front right perspective view of inner package in open position;

FIG. 17 is a right side elevational view of inner package in open position;

FIG. 18 is a front view of inner package in open position;

FIG. 19 is a left side elevational view of inner package in open position;

FIG. 20 is a top elevational view of inner package in open position;

FIG. 21 is a bottom elevational view of inner package in open position; and,

FIG. 22 is a rear view of inner package in open position.
