(57) **CLAIM**

The ornamental design for transitional graphic user interface for a display of a mobile telephone, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first image of a transitional graphic user interface for a display of a mobile telephone showing our design;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

FIG. 4 is a front view of a fourth image thereof;

FIG. 5 is a front view of a fifth image thereof;

FIG. 6 is a front view of a sixth image thereof;

FIG. 7 is a front view of a seventh image thereof;

FIG. 8 is a front view of a first image of a second embodiment thereof;

FIG. 9 is a front view of a second image thereof;

FIG. 10 is a front view of a third image thereof;

FIG. 11 is a front view of a fourth image thereof;

FIG. 12 is a front view of a fifth image thereof;

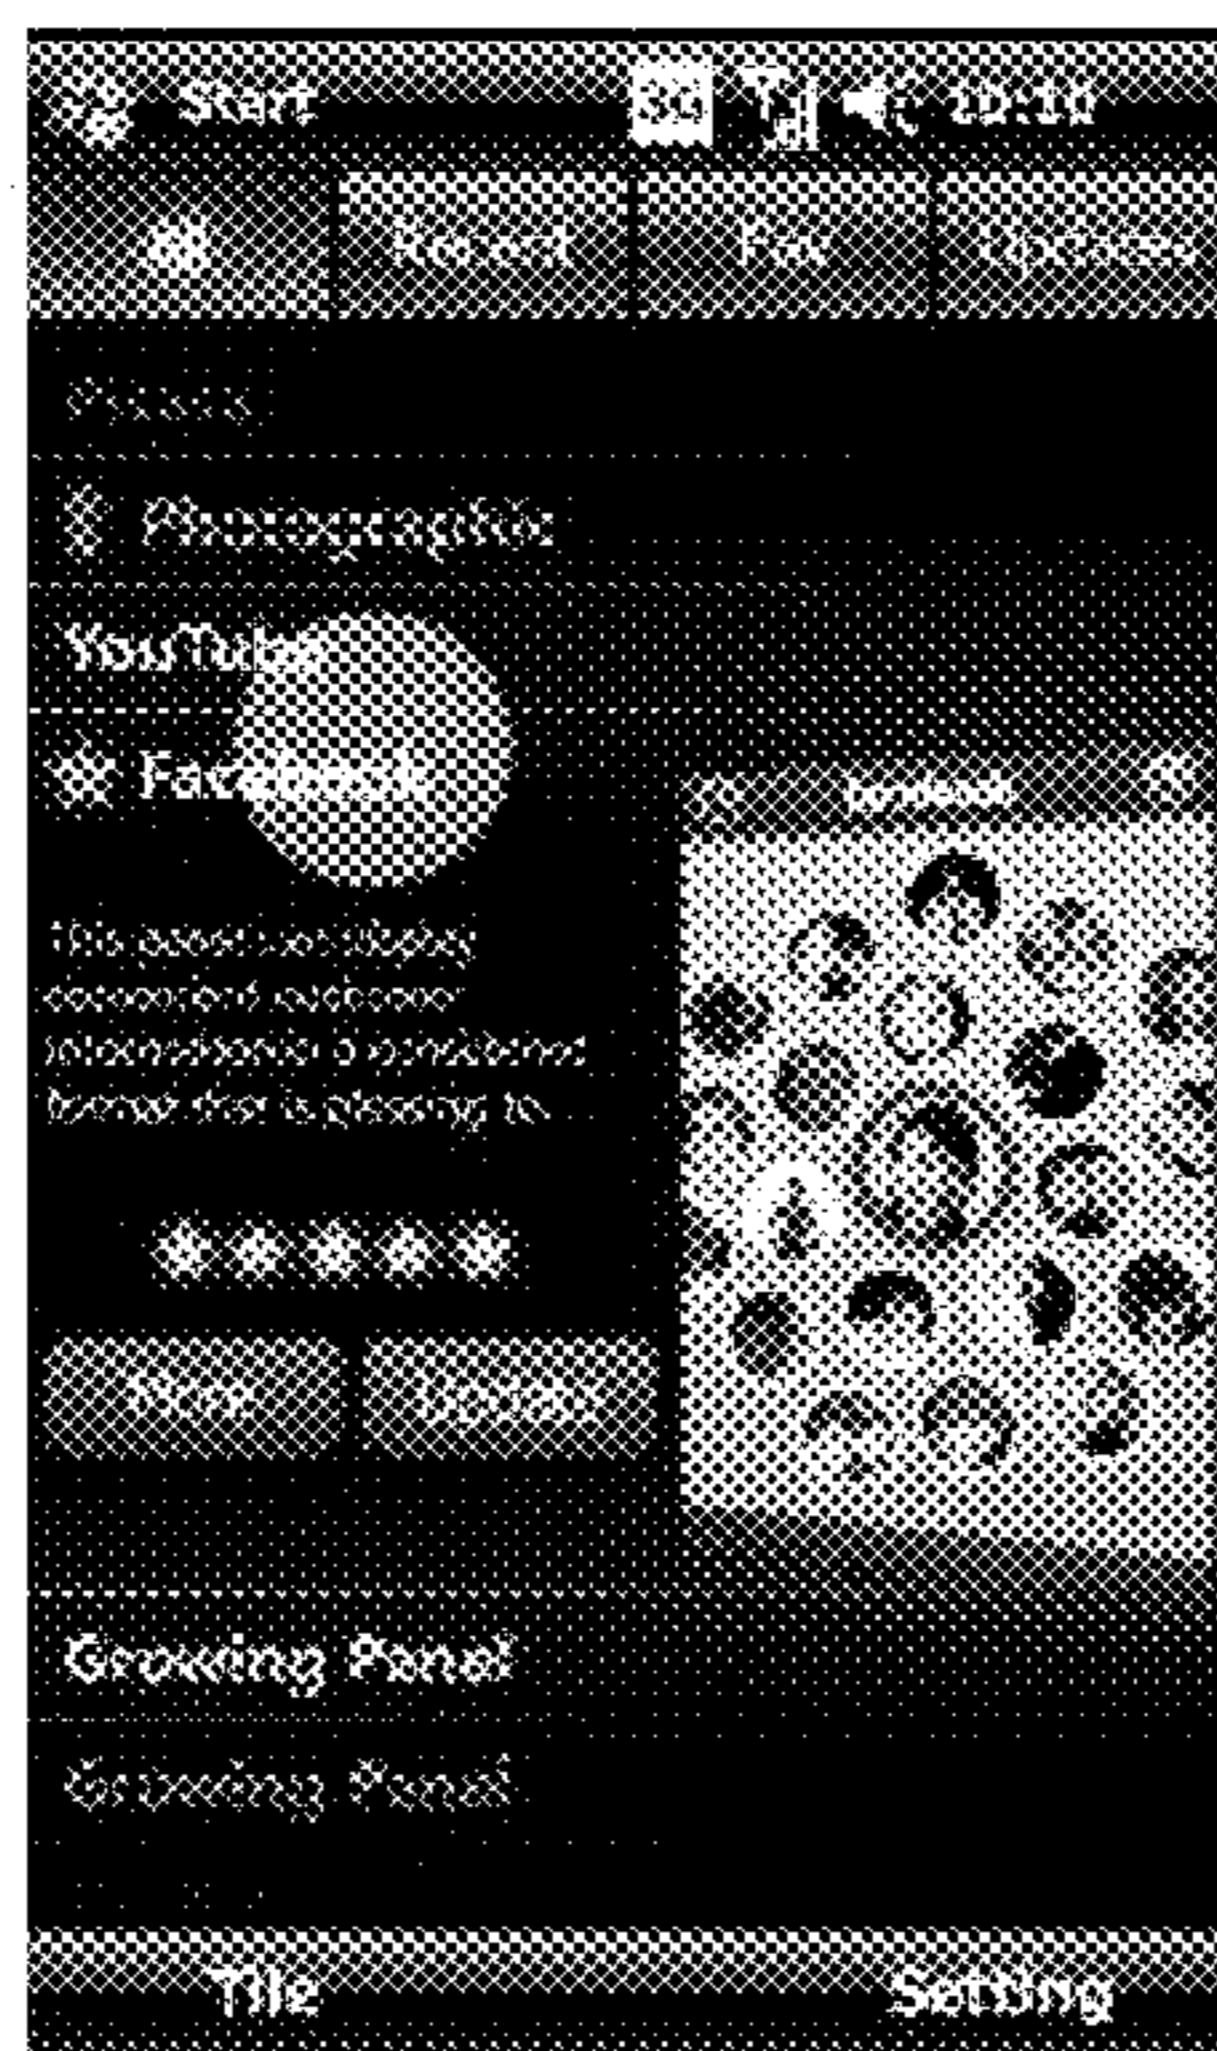

FIG. 13 is a front view of a sixth image thereof; and,

FIG. 14 is a front view of a seventh image thereof.

The appearance of the image transitions sequentially between the images is shown in FIGS. 1-7 and 8-14. The process or period in which an image transitions to another forms no part of the claimed design.

The perimeters of the underlying display panel and the graphic user interface are understood to be flush.
