(57) **CLAIM**

The ornamental design for a needle guide, as shown and described.

**DESCRIPTION**

FIG. 1 is a rear and left side perspective view of a needle guide according to the present invention.

FIG. 2 is a left side elevation view of a needle guide according to the present invention.

FIG. 3 is a rear elevation view of a needle guide according to the present invention.

FIG. 4 is a bottom plan view of a needle guide according to the present invention.

FIG. 5 is a top plan view of a needle guide according to the present invention.

FIG. 6 is a front elevation view of a needle guide according to the present invention.

FIG. 7 is a right side elevation view of a needle guide according to the present invention.

FIG. 8 is another perspective view of a needled guide according to the present invention; and,

FIG. 9 is another perspective view of a needled guide according to the present invention.

The broken lines showing the vial and a syringe of the needle guide in FIGS. 8 and 9 are included for the purpose of illustrating environmental structure and form no part of the claimed design.
