(57) **CLAIM**

The ornamental design for a light emitting diode light projecting assembly, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a light emitting diode light projecting assembly showing my new design.

FIG. 2 is a front elevational view thereof.

FIG. 3 is a rear elevational view thereof.

FIG. 4 is a left side elevational view thereof.

FIG. 5 is a right side elevational view thereof.

FIG. 6 is a top side elevational view thereof.

FIG. 7 is a bottom side elevational view thereof.

FIG. 8 is a perspective view showing a first additional application, a fixture with a U-shape arm and several necessary accessories are applied to fit to the light emitting diode light projecting assembly to assemble a projecting light capable of being mounted on the ceilings or the walls.

FIG. 9 is a perspective view showing a second additional application, a fixture with a camp nail and several necessary accessories are applied to fit the light emitting diode light projecting assembly to assemble a projecting light capable of being fixed in a camping site or a garden; and,

FIG. 10 is a perspective view showing a third additional application, a fixture with a base, a stand and several necessary accessories are applied to fit the light emitting diode light projecting assembly to assemble a projecting light capable of being put on the desk.

The structure shown in broken lines in the figures is unclaimed.
