See application file for complete search history.

DESCRIPTION

FIG. 1 is a front elevational view showing my new design of a T-shirt with tie attached at an upper end thereof, with broken lines showing stitching and/or contextual features that form no particular part of the claimed ornamental design;

FIG. 2 is a left side elevational view of the design of FIG. 1, the right side being an identical mirror image thereof;

FIG. 3 is a front elevational view of my new design showing the tie flipped upward as an illustration of its possible movement with respect to the shirt due to its attachment to the shirt at an upper end, where the shirt and tie are shown in a different color combination from that shown in FIG. 1;

FIG. 4 is a left side elevational view of the aspect of FIG. 3, the right side being a near mirror image thereof;

FIG. 5 is a front elevational view of a combined shirt and tie showing yet another color combinational aspect of my new design, with stippling representative of a tinting of the material used for the ornamental design;

FIG. 6 is a left side elevational view of the aspect of FIG. 5, the right side being an identical mirror image thereof;

FIG. 7 is a front elevational view of a combined shirt and tie showing still another color combinational aspect of my new design;

FIG. 8 is a left side elevational view of the design of FIG. 7, the right side being an identical mirror image thereof;

FIG. 9 is a front elevational view of a combined shirt and tie showing still another color combinational aspect of my new design; and,

FIG. 10 is a left side elevational view of the design of FIG. 9, the right side being an identical mirror image thereof.
