(57) **CLAIM**

The ornamental design for a connector with a locking and
release device, as shown and described.

DESCRIPTION

FIG. 1 is a front, left, top-side perspective view of the con-
nector with a locking and release device showing our new
design;

FIG. 2 is a top view thereof, the bottom view being a mirror
image of the top view;

FIG. 3 is a left side view thereof, the right side view being a
mirror image of the left side view; and,

FIG. 4 is a front view thereof, the rear view being a mirror
image of the front view.

The broken lines in FIG. 4 depict interior portions of the
connector that form no part of the claimed design.
