(57) **CLAIM**

The ornamental design for an electrical connector, as shown and described.

**DESCRIPTION**

In a preferred embodiment, the nature of this product is an electrical connector in the form of an electrical connector housing configured for retaining a plurality of electrical contacts.

This application is related by subject matter to U.S. patent application entitled “Electrical Connector” filed on even date herewith under U.S. Appl. No. 29/331,731.

FIG. 1 is a top, right, front perspective view of an electrical connector according to our design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is a right side elevation view thereof;

FIG. 5 is a left side elevation view thereof;

FIG. 6 is a front elevation view thereof; and,

FIG. 7 is a rear elevation view thereof.

The broken line portion of the figure drawings is included to show unclaimed subject matter only and forms no part of the claimed design.
