(57) **CLAIM**

The ornamental design for an advertising device, as shown
and described.

DESCRIPTION

FIG. 1 is an isometric view of an advertising device showing
my new design in use, in a partially folded state;

FIG. 2 is an enlarged isometric view thereof in a partially
folded state; and,

FIG. 3 is a reduced scale top view thereof in an unfolded state.
The broken lines crossing over the full line showing the
claimed design denote fold lines. Therefore, the area under
the broken lines in FIG. 3 is part of the claimed design. A
bottom view of the claimed advertising device is a mirror
image of the top view.

The broken lines in FIG. 1 are shown in the views for illus-
trative purposes only, and form no part of the claimed design.
