(57) **CLAIM**

We claim the ornamental design for a battery pack receiving area and connection terminals for a high current draw device, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a first construction of a battery pack receiving area and connection terminals for a high current draw device of the present invention.

FIG. 2 is bottom view of the chamber and contact area of FIG. 1.

FIG. 3 is a front-left cross-sectional perspective view of the chamber and contact area of

FIG. 1 along sectioning line 2—2 (shown in FIG. 2).

FIG. 4 is a front-right cross-sectional perspective view of the battery pack receiving area and connection terminals of FIG. 1 along sectioning line 2—2 (shown in FIG. 2).

FIG. 5 is a front-right cross-sectional perspective view of the battery pack receiving area and connection terminals of FIG. 1 along sectioning line 1—1 (shown in FIG. 2).

FIG. 6 is a front-left cross-sectional perspective view of the battery pack receiving area and connection terminals of FIG. 1 along sectioning line 1—1 (shown in FIG. 2).

FIG. 7 is a bottom cross-sectional view of the battery pack receiving area and connection terminals of FIG. 1 along sectioning line 2—2 (shown in FIG. 2); and,

FIG. 8 is a top cross-sectional view of the battery pack receiving area and connection terminals of FIG. 1 along sectioning line 1—1 (shown in FIG. 2).

The portions of the design shown in broken lines are included for the purpose of illustrating environment and form no part of the claimed design. The portions of the design shown in broken lines having unequal segments illustrate the boundary of the claimed design and form no part of the claimed design.
