(57) **CLAIM**

The ornamental design for a spout ring lid with cap, as shown and described.

FIG. 1 is a perspective view of a spout ring lid with cap with the cap portion removed for ease of illustration showing my new design;

FIG. 2 is a front elevational view of the spout ring lid portion of the spout ring lid with cap with the cap portion removed for ease of illustration.

FIG. 3 is a side elevational view of the spout ring lid portion of the spout ring lid with cap with the cap portion removed for ease of illustration.

FIG. 4 is a top plan view of the spout ring lid portion of the spout ring lid with cap with the cap portion removed for ease of illustration.

FIG. 5 is a cross-sectional view of the spout ring lid portion of the spout ring lid with cap taken along line 5—5 of FIG. 4.

FIG. 6 is a cross-sectional view of the spout ring lid portion of the spout ring lid with cap taken along line 6—6 of FIG. 4.

FIG. 7 is a partially exploded perspective view of a spout ring lid with cap showing the cap portion separated from the spout ring lid portion.

FIG. 8 is a perspective view of a spout ring lid with cap showing my new design.

FIG. 9 is a front elevational view of the cap portion of the spout ring lid with cap with the spout ring lid portion removed for ease of illustration.

FIG. 10 is a cross-sectional view of the spout ring lid with cap taken along line 10—10 of FIG. 8.

FIG. 11 is a cross-sectional view of the spout ring lid with cap taken along line 11—11 of FIG. 8; and,

FIG. 12 is an exploded perspective view of a spout ring lid with cap showing the cap portion and the ring lid portion separated from the spout portion.

A no spill spout and cap providing attachment with a ring shaped lid closure.
