shown and described.

DESCRIPTION

FIGS. 1-4 are views of an exemplary dispensing closure.

FIG. 1 is a perspective view of the dispensing closure.

FIG. 2 is a top plan view of the dispensing closure.

FIG. 3 is a bottom plan view of the dispensing closure; and,

FIG. 4 is a front elevational view of the dispensing closure, for
which rear elevational, left side elevational, and right side
elevational views would be identical.

The broken lines immediately adjacent the shaded areas rep-
resent the bounds of the claimed designs, while all other
broken lines are directed to environment and are for illustra-
